Telework Penetration Potential And Practice In Europe

Werner B. Korte, Richard Wynne

Telework Penetration Potential And Practice In Europe:

Teleworking Paul J. Jackson, Jos M. van der Wielen, 2002-01-31 Teleworking is an up to date groundbreaking and comprehensive assessment of teleworking It includes multidisciplinary contributions drawing on sociology management science economics philosophy and information technology analysis of post modern and post industrial theoretical contexts a selection of empirical studies from across the world accounts of different modes of teleworking from homeworking to centre based working examination of the links between teleworking and the virtual organisation Wide ranging detailed and original this book is a valuable introduction to teleworking and an important contribution to the debate on the future of the labour market Telework Werner B. Korte, Richard Wynne, 1996 *The Flexible Workplace* Christine Avery, Diane Zabel, 2000-10-30 Flextime telecommuting compressed work week job sharing downshifting and hot desking these terms are infiltrating our vocabulary at an increasing rate keeping pace with change in the workplace Although there is a large body of literature on the changing nature of work and workplace flexibility there is no handbook that synthesizes the research on all aspects of this topic Pulling together the vast literature on this subject Avery and Zabel explain the concept of flexible work trace the origin and growth of this workplace trend and review the research on a range of flexible work arrangements Workplace flexibility is international in scope Companies both in the United States and abroad have become increasingly interested in implementing flexible work arrangements The authors include a chapter on companies in North America Western Europe and the United Kingdom that have been leaders in implementing flexible work arrangements They identify areas ripe for additional research suggest a broad array of resources and discuss strategies for locating additional information including relevant databases Internet resources organizations and search terms This is a valuable handbook for managers researchers and students working or studying in the areas of human resource management industrial organizational psychology and the sociology of work *Teleworking in the Countryside* Michael Antony Clark, 2018-02-06 This title was first published in 2000 Since the 1970s there has been widespread debate on the potential of information communication technologies on the organization of work and in particular the implications of and opportunities engendered through telework and the decentralization of the workplace However despite the possible spatial cultural social and economic implications much of the telework debate has been informed by anecdotal examples journalistic reporting and individual forecasts This book aims to further the debate by analyzing the scale nature and experience of telework in the countryside It examines how and by whom telework is set up and what policy and social changes are taking place to facilitate it in rural areas Individual teleworkers and the organizations using them are questioned to assess whether rural teleworking is proving as advantageous in practice as it is thought to be in theory Its conclusions suggest that teleworking may not yet be the solution to the many rural problems such as unemployment and depopulation and that businesses and local authorities still need to develop their policies and strategies to allow this type of working to reach its potential **International**

Encyclopedia of Ergonomics and Human Factors - 3 Volume Set Informa Healthcare, Waldemar Karwowski, 2006-03-15
The previous edition of the International Encyclopedia of Ergonomics and Human Factors made history as the first unified source of reliable information drawn from many realms of science and technology and created specifically with ergonomics professionals in mind It was also a winner of the Best Reference Award 2002 from the Engineering Libraries

International Encyclopedia of Ergonomics and Human Factors, Second Edition - 3 Volume Set Waldemar Karwowski, 2006-03-15 The previous edition of the International Encyclopedia of Ergonomics and Human Factors made history as the first unified source of reliable information drawn from many realms of science and technology and created specifically with ergonomics professionals in mind It was also a winner of the Best Reference Award 2002 from the Engineering Libraries Division American Society of Engineering Education USA and the Outstanding Academic Title 2002 from Choice Magazine Not content to rest on his laurels human factors and ergonomics expert Professor Waldemar Karwowski has overhauled his standard setting resource incorporating coverage of tried and true methods fundamental principles and major paradigm shifts in philosophy thought and design Demonstrating the truly interdisciplinary nature of this field these changes make the second edition even more comprehensive more informative more in a word encyclopedic Keeping the format popularized by the first edition the new edition has been completely revised and updated Divided into 13 sections and organized alphabetically within each section the entries provide a clear and simple outline of the topics as well as precise and practical information The book reviews applications tools and innovative concepts related to ergonomic research Technical terms are defined where possible within entries as well as in a glossary Students and professionals will find this format invaluable whether they have ergonomics engineering computing or psychology backgrounds Experts and researchers will also find it an excellent source of information on areas beyond the range of their direct interests

Home Informatics and Telematics Andy Sloane, Felix van Rijn, 2013-03-09 This volume is composed of the best papers submitted to the HOIT2000 conference held in Wolverhampton U K in June 2000 The conference entitled IT at home Virtual influences on everyday life and the papers reflect the wide variety of these influences that are coming to bear on our everyday experience be it through the increasing use of computers or the rapid development of new telecommunications systems The conference has been organised by IFIP Working Group 9.3 Home Oriented Informatics and Telematics HOIJ in association with IFIP Working Group 13.2 Methodology for user centred system design This gives a broad range of topics that are within the sphere of interest of the participants and the authors of the papers The disciplines involved in the study of this subject area are varied composing computing telecommunications psychology sociology business studies and others The conference is the second in a series of HOIT conferences the first being held in Copenhagen in 1994 The subject is now more mature with the various disciplines being increasingly interested in the home as a research domain The various technical developments over the time since the first conference have also had a profound effect on the way in which people

communicate both in the home and at work The rise in the use of the Internet has changed the way in which many people view communication and access to information sources

Teleworking Mike Johnson,2013-10-11 From the people who work exclusively from home to the portable manager with no fixed site the need to communicate is paramount Mike Johnson's candid appraisal of teleworking or telecommuting as it is also known looks at the key benefits for the individual it provides the opportunity to work from home for the company it provides major savings on costs The down side is the lack of human contact and the anxiety of employees who work away from the centre of things The in brief books provide a critical snapshot of the major management fashions and fads influencing business strategy They cut through the consultants jargon and steer a practical common sense course through the theory and hype They provide managers with a balanced view based on evidence rather than missionary zeal so that they can be better informed

Flexible Working Practices John Stredwick,Steve Ellis,1998 Developing Practice provides managers with essential frameworks to identify formulate and implement the best policies and practice in the management and development of people

Organisation and Work Beyond 2000 Birger Rapp,Paul Jackson,2012-02-02 The fifth International Telework Workshop was held in Stockholm in the fall of 2000 The conference was attended by almost 100 participants from all continents of the world It therefore covered a broad range of subjects relating to Telework Its success was in some part due to the work of the program committee composed of Birger Rapp General Chairman Maarten Botterman Geoff Dick Gil Gordon Ursula Huws Paul Jackson Peter Johnston Patricia L Mokhtarian Victor de Pous Lars Qvotrup Wendy Spinks and Reirna Suomi After the conference we decided to write a book on the theme Organization and the future after 2000 Many of the participants as well as others were invited to contribute a chapter of about ten pages The resulting book of almost 400 pages therefore provides a comprehensive overview of ongoing research in the field of Telework Birger Rapp and Paul Jackson edited the book The intended audience for this book spans disciplinary and professional boundaries It primarily relates to the disciplines of Business and Management Studies Information Management E commerce and E business In a broader sense it relates to Sociology Media Studies and Economics
