Library,Betsy C. Kysely,1980 *Rhetoric, Religion and the Civil Rights Movement, 1954-1965* Davis W. Houck,David E. Dixon,2006 V 2 Building upon their critically acclaimed first volume Davis W Houck and David E Dixon s new Rhetoric Religion and the Civil Rights Movement 1954 1965 is a recovery project of enormous proportions Houck and Dixon have again combed church archives government documents university libraries and private collections in pursuit of the civil rights movement s long buried eloquence Their new work presents fifty new speeches and sermons delivered by both famed leaders and little known civil rights activists on national stages and in quiet shacks The speeches carry novel insights into the ways in which individuals and communities utilized religious rhetoric to upset the racial status quo in divided America during the civil rights era Houck and Dixon s work illustrates again how a movement so prominent in historical scholarship still has much to teach us Publisher **Assessing Affective Characteristics in the Schools** Lorin W. Anderson,Sid F. Bourke,2013-05-13

The affective realm is a critical but often forgotten aspect of schooling The development of character and the formation of appropriate learning environments rely to a large extent on understanding the affective nature of students Even when the focus is on cognitive achievement affect has a role to play Teachers frequently mention a lack of motivation as a primary reason for students not achieving as well as they should or as well as their teachers would like Despite the importance of affect educators rarely make an effort to systematically collect and use information about students affective characteristics to better understand students and to substantially improve the quality of education they receive This book s purpose is to provide educators with the knowledge and skills they need to design and select instruments that can be used to gather information about students affective characteristics Once valid and reliable information has been gathered it can be used to aid in understanding and to improve educational quality The second edition features an updated list of affective characteristics i e attitudes values interests self esteem self efficacy locus of control a dual emphasis on selecting and designing affective assessment instruments an emphasis on multi scale instruments i e a single instrument with multiple affective scales the use of a single small data set to illustrate and foster understanding of key concepts and procedures a dual emphasis on data about individual students and groups of students a dual focus on the instrumental value of affective data and the inherent value of affective data i e affect is valuable in and of itself **Resources in Education** ,1997
