Birchell,2015-03-02 The Guadalupe Mountains hold what some call the most beautiful spot in Texas Once home to the Mescalero Apaches McKittrick Canyon is an alluring wonderland of lush and abundant flora and fauna It is named for Captain Felix McKittrick who acquired the land for ranching in 1869 Legends of lost Spanish gold mines drew many unsuccessful prospectors before the turn of the century Later through the monumental efforts of early landowners J C Hunter Sr and Wallace Pratt the canyon was preserved as a pristine portion of the Guadalupe Mountains National Park Each fall eager visitors witness a vibrant show headlined by bigtooth maple and a variety of oak trees Join author Donna Blake Birchell in an exploration of McKittrick Canyon s colorful history *Mountain Islands and Desert Seas* Frederick R. Mountain Islands and Desert Seas ,2005 *Exploring the Edges of Texas* Walt Davis,Isabel Davis,2010-01-18 In 1955

Frank X Tolbert a well known columnist for the Dallas Morning News circumnavigated Texas with his nine year old son in a Willis Jeep The column he phoned in to the newspaper about his adventures Tolbert s Texas was a staple of Walt Davis s childhood Fifty years later Walt and his wife Isabel have re explored portions of Tolbert s trek along the boundaries of Texas The border of Texas is longer than the Amazon River running through ten distinct ecological zones as it outlines one of the most familiar shapes in geography According to the Davises Driving its every twist and turn would be like driving from Miami to Los Angeles by way of New York Each of this book s sixteen chapters opens with an original drawing by Walt representing a segment of the Texas border where the authors selected a special place a national park a stretch of river a mountain range or an archeological site Using a firsthand account of that place written by a previous visitor artist explorer naturalist or archeologist they then identified a contemporary voice whether biologist rancher river runner or paleontologist to serve as a modern day guide for their journey of rediscovery This dual perspective allows the authors to attach personal stories to the places they visited to connect the past with the present and to compare Texas then with Texas now Whether retracing botanist Charles Wright s 600 mile walk to El Paso in 1849 or paddling Houston s Buffalo Bayou where John James Audubon saw ivory billed woodpeckers in 1837 the Davises seek to remind readers that passionate and determined people wrote the state s natural history Anyone interested in Texas or its rich natural heritage will find deep enjoyment in *Exploring the Edges of Texas* Publication of this book is generously supported by a memorial gift in honor of Mary Frances Chan Driscoll a founding member of the Advisory Council of Texas A M University Press by her sons Henry B Paup 70 and T Edgar Paup 74
