The Oxford Book of Exploration Robin Hanbury-Tenison,2005 Selected by Robin Hanbury Tenison described by the Sunday Times as the greatest explorer of the last twenty years this is a comprehensive anthology of the writings of explorers through the ages now fully revised and updated The ultimate in travel writing these are the words of those who changed the world through their pioneering search for new lands new peoples and new experiences Divided into geographical sections the book takes us to Asia with Vasco da Gama Francis Younghusband and Wilfred Thesiger to the Americas with John Cabot Sir Francis Drake and Alexander Von Humboldt to Africa with Dr David Livingstone and Mary Kingsley to the Pacific with Ferdinand Magellan and James Cook and to the Poles with Robert Peary and Wally Herbert Driven by a desire to discover that transcends all other considerations the vivid writings of these extraordinary people reveal what makes them go beyond the possible and earn the right to be known as explorers

The 50 Greatest Explorers in History Michelle Rosenberg,2022-04-21 This is a book about one of the first recorded pilgrims who climbed Mount Sinai it s about Amelia Earhart the famous American aviator whose story and disappearance continues to capture the world s imagination It s the story of a doomed expedition to discover the North West Passage and the tale of Marco Polo who remained at the court of the Kublai Khan for an incredible 17 years The 50 Greatest Explorers in History brings to life the pioneers in aviation flying thousands of miles with the most basic of maps in open cockpits exposed to the elements and the unrelenting smell of petrol fumes They travel by steamboat on horseback by rickshaw motorbike train swim with piranhas embark into black nothingness in new spacecraft explore by Jeep yachts tea boats and elephants disguise themselves as men take canoes and use innovative advanced technological scuba equipment Going where in many cases no man or woman had ever gone before some women featured in this books were often denied respect acknowledgment or recognition and they determined to break the men s club mentality of global exploration from which they were excluded *Famous Discoveries and their discoverers* Ian Taylor,2015-08-10 Did you know that Christopher Columbus did not discover America or that after

a Greek scholar found a way of measuring the Earth it was 1300 years before the rest of the world would believe him Or that nitrocellulose explosive was discovered when an inventor spilt some chemicals in the kitchen and blew up his wife s apron This book by a former career scientist deals with a fascinating range of discoveries over the centuries related to everything from geology and astronomy to atomic theory zoology and men who discovered continents It also gives revealing information about the colourful lives of some of the people whose findings changed the world and often their own lives for ever *Books* ,1991

Explorer Travellers and Adventure Tourism Jennifer Laing, Warwick Frost, 2014-08-04 This book examines the nexus between exploring and tourism and argues that exploration travel based heavily on explorer narratives and the promises of personal challenges and change is a major trend in future tourism In particular it analyses how romanticised myths of explorers form a foundation for how modern day tourists view travel and themselves Its scope ranges from the Golden Age of imperial explorers in the 19th and early 20th centuries through the growth of adventure and extreme tourism to possible future trends including space travel The volume should appeal to researchers and students across a variety of disciplines including tourism studies sociology geography and history *Historical Dictionary of the Discovery and Exploration of the Pacific Islands* Max Quanchi, John Robson, 2005-10-18 The long voyages of discovery and exploration of the vast Pacific Ocean were an exercise in logistics navigation hard grit shipwreck and pure luck The motivations were scientific and geographic but at the same time nationalistic and materialistic This ambitious and informative reference includes the familiar names of Laperouse Bougainville Cook and Dampier as well as the intriguing stories of the Bounty Mutiny scurvy and the mysterious Northwest Passage Terra Australis Ignatia and Davis Land There are cross referenced entries on first contacts ships navigational instruments mapping and botany The scene is carefully set in the introduction the chronology spans several centuries and the extensive bibliography offers a guide to further reading *New Spaces of Exploration* Simon Naylor, James R. Ryan, 2009-12-18 For many the dawn of the twentieth century ushered in an era where the world map had few if any blank spaces left to discover The age of exploration was supposedly dead New Spaces of Exploration challenges this assumption Focusing specifically on exploration in the twentieth century the authors demonstrate how new technologies and changing geopolitical configurations have ensured that exploration has remained a key feature of our rapidly globalizing world Ranging widely in their geographical focus from the Europe and Asia to Australia and from the polar regions to outer space they demonstrate the increasing diversity of modern exploration and reveal the continuing political military industrial and cultural motivations at play The result is a major contribution to our understanding of the significance of exploration in the twentieth century Contributors include E Baigent C Collis K Dodds F Driver M Godwin J Hill F Korsmo F MacDonald S Naylor J Ryan N Thomas and K Yusoff *Books Magazine* ,1991
