President,1992 Containing the public messages speeches and statements of the President 1956 1992 Bugsplat Bruce Cronin,2018-03-07 Why do states who are committed to the principle of civilian immunity and the protection of non combatants end up killing and injuring large numbers of civilians during their military operations Bugsplat explains this paradox through an in depth examination of five conflicts fought by Western powers since 1989 *George Bush* United States. biological agents was found by two American scientists in veterans of the Gulf War and in civilians as part of a massive testing program and how various academic and governmental employees did everything in their power to prevent this information from being released to the American public Weekly Compilation of Presidential Documents ,1991 Peace at What Price?
