Greek Art and Aesthetics in the Fourth Century B.C. William A. P. Childs, 2018-04-10 Greek Art and Aesthetics in the Fourth Century B C analyzes the broad character of art produced during this period providing in depth analysis of and commentary on many of its most notable examples of sculpture and painting Taking into consideration developments in style and subject matter and elucidating political religious and intellectual context William A P Childs argues that Greek art in this era was a natural outgrowth of the high classical period and focused on developing the rudiments of individual expression that became the hallmark of the classical in the fifth century As Childs shows in many respects the art of this period corresponds with the philosophical inquiry by Plato and his contemporaries into the nature of art and speaks to the contemporaneous sense of insecurity and renewed religious devotion Delving into formal and iconographic developments in sculpture and painting Childs examines how the sensitive expressive quality of these works seamlessly links the classical and Hellenistic periods with no appreciable rupture in the continuous exploration of the human condition Another overarching theme concerns the nature of style as a concept of expression an issue that becomes more important given the increasingly multiple styles and functions of fourth century Greek art Childs also shows how the color and form of works suggested the unseen and revealed the profound character of individuals and the physical world *The Journal of Hellenic Studies* ,1991 Vols 1 8 1880 87 plates published separately and numbered I LXXXIII **Kallimachos** Rudolf Blum, 2011-06-01 The famous library of Alexandria founded around 295 BCE by Ptolemaios I housed the greatest collection of texts in the ancient world and was a fertile site of Hellenistic scholarship Rudolf Blum s landmark study originally published in German in 1977 argues that Kallimachos of Kyrene was not only the second director of the Alexandrian library but also the inventor of two essential scholarly tools still in use to this day the library catalog and the biobibliographical reference work Kallimachos expanded the library s inventory lists into volumes called the Pinakes which extensively described and categorized each work and became in effect a Greek national bibliography and the source and paradigm for most later bibliographic lists of Greek literature Though the Pinakes have not survived Blum attempts a detailed reconstruction of Kallimachos s inventories and catalogs based on a careful analysis of surviving sources which are presented here in full translation **Hellenistic Poetry** Barbara Hughes Fowler, 1990 An accomplished poet and classical scholar Barbara Hughes Fowler brings Hellenistic poetry to life for the contemporary reader Her selections engage us with the full range of Hellenistic poetic genres styles themes and moods The anthology includes Fowler s new translation of the entire Argonautica of Apollonius of Rhodes and eight of Theocritus

Idylls including the beautiful sensuous description of late summer in Idyll VII and the shrewdly comical description of two young matrons venturing into the noisy streets of Alexandria in Idyll XV There are translations of four hymns of Callimachus as well as poems by Aratus Bion Herodas Moschus Pseudo Moschus and a substantial selection from the Greek Anthology An ideal companion to her recently published book *The Hellenistic Aesthetic* Barbara Fowler's *Hellenistic Poetry* is both a major contribution to classical studies and an invitation to all interested readers to discover the beauty and richness of Hellenistic poetry
