THE HIGH ROAD

- 
- A photograph of a man in a white tank top and brown pants walking away from a dark-colored car in a desert landscape. The car's driver-side door is open, and the interior of the car is visible in the foreground. The background shows a vast, arid desert under a cloudy sky.

The High Road To Pyrrhonism

Peter S. Fosl

The High Road To Pyrrhonism:

The High Road to Pyrrhonism Richard Henry Popkin, 1993-01-01 In this sequel to his classic study *The History of Scepticism from Erasmus to Descartes* Popkin examines the important role played by the revival and reformulation of classical scepticism in eighteenth century philosophy

The Legacies of Richard Popkin Jeremy D. Popkin, 2008-11-05 Richard H Popkin 1923 2005 transformed the study of the history of philosophy in the second half of the twentieth century His *History of Scepticism* and his many other publications demonstrated the centrality of the problem of skepticism in the development of modern thought the intimate connections between philosophy and religion and the importance of contacts between Jewish and Christian thinkers In this volume scholars from around the world assess Popkin's contributions to the many fields in which he was interested *The Legacies of Richard Popkin* provides a broad overview of Popkin's work and demonstrates the connections between the many topics he wrote about A concluding article by Popkin's son Jeremy Popkin draws on private letters to provide a picture of Popkin's life and career in his own words revealing the richness of the documents now accessible to scholars in the Richard Popkin papers at the William Andrews Clark Library in Los Angeles

The Riddle of Hume's Treatise Paul Russell, 2010-06-15 It is widely held that Hume's *Treatise* has little or nothing to do with problems of religion Contrary to this view Paul Russell argues that it is irreligious aims and objectives that are fundamental to the *Treatise* and account for its underlying unity and coherence

Skepticism in the Modern Age José Raimundo Maia Neto, Gianni Paganini, John Christian Laursen, 2009 Since the publication of the first edition of Richard Popkin's classic *The History of Scepticism* in 1960 skepticism has been increasingly recognized as a major force in the development of early modern philosophy This book provides a review of current scholarship and significant updated research on some of the main thinkers and issues related to the reappraisal of ancient skepticism in the modern age Special attention is given to the nature importance and relation to religion of Montaigne's and Hume's skepticisms to the various skeptical and non-skeptical sources of Cartesian doubt to the skeptical and anti-skeptical impact of Cartesianism in the seventeenth and eighteenth centuries and to philosophers who dealt with skeptical issues in the development of their own various intellectual interests

Race and Racism in Modern Philosophy Andrew Valls, 2005 An innovative substantial intervention in critical race theory this book brings together an impressive roster of thinkers to trace the question of race in modern philosophical inquiry and explore its influence on contemporary philosophy

Hume's Epistemology in the Treatise Frederick F. Schmitt, 2014 Frederick F. Schmitt offers a new account of Hume's epistemology in *A Treatise of Human Nature* which alternately manifests scepticism empiricism and naturalism Critics have emphasised one of these positions over the others but Schmitt argues that they can be reconciled by tracing them to an underlying epistemology of knowledge and probability

The Breakdown of Cartesian Metaphysics Richard A. Watson, 1998-01-01 Combines historical research and philosophical analysis to cast light on why and how Cartesianism failed as a complete metaphysical system Far more radical in its

conclusions than his 1966 study *The Downfall of Cartesianism* a slightly revised version of which forms the main body of the current work Watson argues that Descartes's ontology is incoherent and vacuous his epistemology deceptive and his theology unorthodox indeed that Descartes knows nothing *Hume's Scepticism* Peter S. Fosl, 2019-08-22 Peter S Fosl offers a radical interpretation of Hume as a thoroughgoing sceptic on epistemological metaphysical and doxastic grounds He first contextualises Hume's thought in the sceptical tradition and goes on to interpret the conceptual apparatus of his work including the *Treatise Enquiries Essays History Dialogues* and letters *The Sceptical Mode in Modern Philosophy* R. A. Watson, J.E. Force, 2012-12-06 *Writing History* Stefan Berger, Heiko Feldner, Kevin Passmore, 2020-02-20 The third edition of *Writing History* provides students and teachers with a comprehensive overview of how the study of history is informed by a broader intellectual and analytical framework exploring the emergence and development of history as a discipline and the major theoretical developments that have informed historical writing Instead of focusing on theory this book offers succinct explanations of key concepts that illuminate the study of history and practical writing and demonstrates the ways they have informed practical work This fully revised new edition comprehensively rewrites and updates original chapters but also includes new features such as new chapters on postcolonial environmental and transnational history chapter introductions setting them within the context of historiography a new substantive introduction from the editors providing a useful road map for students an expanded glossary In its new incarnation *Writing History* is more than ever an invaluable introduction to the central debates that have shaped history
