Case Management in Mental Health Services Charlotte Sanborn, 2014-06-03 An invaluable resource on the basic principles of case management including the necessary guidelines for practice *Schizophrenia Bulletin*, 1986 **The Chronically Mentally Ill** Mohsen Mirabi, 2012-12-06 The topic of chronic mental illness has been much discussed but there is still no widely accepted strategy of intervention for patients suffering from disorders of this kind These patients have received little attention until recently because they are difficult to treat effectively Although methods of patient care are changing rapidly the application of new techniques has been slow Services for chronically disabled patients have been poorly funded Government support has decreased while deinstitutionalization has increased the demand for community services This volume focuses on emerging trends and developments in the field and offers comprehensive coverage of state of the art methods of diagnosis evaluation and treatment of the chronically mentally ill population Many leading clinicians scientists and mental health advocates discuss new suggestions and solutions to longstanding problems presenting biological and psychosocial perspectives We introduce readers to current movements in the diagnosis and treatment of schizophrenia depression chronic alcoholism mental retardation and the mental illnesses related to aging Recent trends in psychopharmacology psychotherapy and social management that may enable patients to live more satisfying and productive lives are particularly highlighted **VA Care of the Chronically Mentally Ill** United States. Congress. House. Committee on Veterans' Affairs. Subcommittee on Hospitals and Health Care, 1994 **Phenomenology and Treatment of Psychiatric Emergencies** B.S. Comstock, W.E. Fann, A.D. Pokorny, Robert L. Williams, 2012-12-06 psychiatric treatment approaches there are opportunities for trial and error exploration and reconsideration revision of treatment approach and correction of errors Revisions and corrections are based on observations of progress and on response from patients about the impact of treatment efforts But emergency interventions usually are one time efforts involving a sequence of evaluation therapeutic intervention and referral out Response is limited or absent and there are no opportunities for corrections over time Therefore interventions and referrals must be made on the basis of first evaluations with positive conviction related to current best effort and despite the lack of guidance derived from tracking the patient's progress over time The staff must tolerate the risk taking required and must also be prepared to forego the gratification of seeing the beneficial results of the work done Even in programs structured to allow return visits and despite the occasional information provided by other agencies after referrals the majority of patients are lost to follow up The usefulness of specific interventions is hard to evaluate and the satisfaction of seeing a task completed is rarely available The emergency program staff must tolerate a considerable amount of stress in the environment Emergency care centers are collection points for an extraordinary volume of human suffering The anxieties and strains associated with persistent urgency of need alarm related to unexpected difficulties fearfulness about outcome closeness of death and presence of pain pervade the atmosphere Community Support for
