Handbook of the Theosophical Current, 2013-01-08 Few religious currents have been as influential as the Theosophical. Yet few currents have been so under researched and the Brill Handbook of the Theosophical Current thus represents pioneering research. A first section surveys the main people and events involved in the Theosophical Society from its inception to today and outlines the Theosophical worldview. A second substantial section covers most significant religions to emerge in the wake of the Theosophical Society: Anthroposophy, the Point Loma community, the I AM religious activity, the Summit Lighthouse Movement, the New Age theosophical, UFO religions, and numerous others. Finally, the interaction of the Theosophical current with contemporary culture, including gender relations, art, popular fiction, historiography, and science, are discussed at length.

Monographs in Art and Archaeology Fogg Art Museum, 1971 **Masters in Art a Series of Illustrated Monographs** Stuart, David, Bocklin, Sodoma, Constable, Metsu, Ingres, Wilkie, Ghirlandajo, Bouguereau, Goya Francia, 1906 The Dissolution of the Monasteries James G. Clark, 2022 The first account of the dissolution of the monasteries for fifty years, exploring its profound impact on the people of Tudor England. This is a book about people, though not ideas, and as a detailed account of an extraordinary human drama with a cast of thousands, it is an exceptional piece of historical writing. Lucy Wooding, *Times Literary Supplement*. Shortly before Easter 1540 saw the end of almost a millennium of monastic life in England. Until then, religious houses had acted as a focus for education, literary and artistic expression, and even the creation of regional and national identity. Their closure, carried out in just four years between 1536 and 1540, caused a dislocation of people and a disruption of life not seen in England since the Norman Conquest. Drawing on the records of national and regional archives, as well as archaeological remains, James Clark explores the little-known lives of the last men and women who lived in England's monasteries before the Reformation. Clark challenges received wisdom, showing that buildings were not immediately demolished and Henry VIII's subjects were so attached to the religious houses that they kept fixtures and fittings as souvenirs. This rich, vivid history brings back into focus the prominent place of abbeys, priories, and friaries in the lives of the English people.

Early English Performance: Medieval Plays and Robin Hood Games John Marshall, 2019-10-08 Covering a period of nearly 40 years' work by the author, this collection of essays in the *Shifting Paradigms in Early English Drama Studies* series brings the perspective of a drama academic and practitioner of early English plays to the understanding of how medieval plays and Robin Hood games of the fifteenth and sixteenth centuries were performed. It explores why, where, when, and how the plays happened, who took part, and who were the audiences. The

insights are informed by a combination of research and the public presentation of surviving texts The research included in the volume unites the early English experiences of religious and secular performance This recognition challenges the dominant critical distinction of the past between the two and the consequent privileging of biblical and moral plays over secular entertainments What further binds rather than separates the two is that the destination of funds raised by the different activities maintained the civic and parochial needs of the institutions upon which the people depended This collection redefines the inclusive nature and common interests of the purposes that lay behind generically different undertakings They shared an extraordinary investment of human and financial resources in the anticipation of a profit that was pious and practical CS1081

Contested Hospitalities in a Time of Migration Synnøve Bendixsen, Trygve Wyller, 2019-10-28 This book explores the duality of openness and restriction in approaches to migrants in the Nordic countries As borders have become less permeable to non Europeans it presents research on civil society practices that oppose the existing border regimes and examine the values that they express The volume offers case studies from across the region that demonstrate opposition to increasingly restricted borders and which seek to offer hospitality to migrant One topic is whether these practices impact and transform the Nordic Protestant trajectory The book considers whether such actions are indicative of new sensibilities and values in which traditional categories and binaries are becoming less relevant It also discusses what these practices of hospitality indicate about the changing relationship between voluntary organizations and the Nordic welfare states in the time of migration As such it will appeal to scholars of sociology anthropology and religious studies with interests in migration civil society resistance and social values

The Religious Paintings of Hendrick ter Brugghen Natasha T. Seaman, 2017-07-05 The first in depth study of the Utrecht artist to address questions beyond connoisseurship and attribution this book makes a significant contribution to Ter Brugghen and Northern Caravaggist studies Focusing on the Dutch master's simultaneous use of Northern archaisms with Caravaggio's motifs and style Natasha Seaman nuances our understanding of Ter Brugghen's appropriations from the Italian painter Her analysis centers on four paintings all depicting New Testament subjects They include Ter Brugghen's largest and first known signed work *Crowning with Thorns* his most archaizing the Crucifixion and the two paintings most directly related to the works of Caravaggio the *Doubting Thomas* and the *Calling of Matthew* By examining the ways in which Ter Brugghen's paintings deliberately diverge from Caravaggio's Seaman sheds new light on the Utrecht artist and his work For example she demonstrates that where Caravaggio's paintings are boldly illusionistic and mimetic thus de-emphasizing their materiality Ter Brugghen's works examined here create the opposite effect connecting their content to their made form This study not only illuminates the complex meanings of the paintings addressed here but also offers insights into the image debates and the status of devotional art in Italy and Utrecht in the seventeenth century by examining one artist's response to them
