The Churches of Rome Roger Thynne, 1924 **The Churches of Rome**, 1930 **Pilgrimage** June Hager, 1999 Describes such churches as St Stefano Rotondo St Maria Sopra Minerva and St Peter's in Vatican City **The Churches of Rome, 1527-1870** Michael Erwee, 2014 The churches of Rome constitute arguably the most important manifestations of art and architecture in the Western world This book is a detailed description of 251 churches in Rome and the Vatican City built or decorated between 1527 and 1870 and is based on extensive research in state church and private archives as well as an exhaustive survey of modern and historical bibliographical sources Its aim is to provide a more complete picture of the

construction and decoration of these churches than previously known This entails not only providing the names of the architects who designed the churches but also the names of the masons muratori and stone cutters scalpellini who built the churches and whose skills were essential for realising the architect s plans This depth of information is carried through to the interior decorations The interior of each church is then described in depth on a chapel by chapel basis and includes stucco work marble revetment monuments metal work fresco and painted decorations and altarpieces For each church a brief historical introduction is given and a general bibliography supplied Archival research has brought to light a great number of works of art whose authorship and or dates have hitherto been unknown including works by well known artists but also many that are unknown to scholars A great number of works of art whose authorship has hitherto been unknown are published in this volume for the first time An alphabetic index of artists consisting of over two thousand names is supplied and includes the churches where their works are to be found and accurate biographical information for each artist In addition there is an index of patrons and a street and rione index Also provided are the names and contact details of the archives consulted in researching this book The book is intended to be used as a reference and resource book as well as to be used by visitors to these churches It is lavishly illustrated with photographs Michael Erwee was born in Zambia He received his doctorate from the University of Sydney and was awarded an Alexander von Humboldt post doctorate scholarship from the German Government At present he is an independent researcher

The Primacy of the Church of Rome Margherita Guarducci, 2003 Margherita Guarducci acclaimed scholar of ancient literature extending her research to various disciplines such as philology ancient history archaeology and epigraphy demonstrates how they contribute toward clarifying and resolving a centuries old problem the primacy of the Church of Rome over the other Christian churches The resulting picture spans over two millennia of history illuminated by several primacies of Christianity gathered and evaluated together for the first time ownership of the oldest Christian basilica the Lateran Basilica the oldest portrait of Christ the oldest icon of Mary the oldest Christian statue and most importantly the oldest relics that are surely authentic those of St Peter in St Peter s Basilica In a rigorously scientific way Guarducci gives evidence of certain concatenations of events that as if obeying a mysterious design tend to confirm the primacy of the Church of Rome the ancient universality of which survives to this day in the spiritual primacy of the Roman Catholic that is Universal Church And this survival is guaranteed down through the centuries by the extraordinary presence in the Vatican of the authentic earthly remains of the Apostle whom Christ selected as his vicar on earth Book jacket
