In Search of the Classic Steven Shankman, 2010-11 The classical Steven Shankman argues should not be confused with a particular historical period of Western antiquity although it may owe its original articulation to the literary and philosophical explorations of ancient Greek authors Shankman's book searches for and attempts to formulate the shape of the continuing presence as embodied in particular literary works mainly from Western antiquity and the neoclassical and modern periods of what the author calls a classical understanding of literature For Shankman literature defined from a classical perspective is a coherent compelling and rationally defensible representation that resists being reduced either to the mere recording of material reality or to the bare exemplification of an abstract philosophical precept He derives his definition largely from his reading of Greek literature from Homer through Plato from the history of literary criticism and from the Greco Roman tradition in English American and French literature Shankman reveals unsuspected yet convincing connections among authors of such widely disparate times and places His idea of the classic that authorizes these connections is presented as normative thus making possible the evaluation of literary works and in turn forthright discussion of what constitutes the literary as distinct from other kinds of discourse Shankman's study runs counter to a strong tendency of contemporary criticism that argues precisely against any distinct category of the literary He offers a series of interpretations that cumulatively advance theoretical discussion by challenging scholars to rethink the critical paradigms of postmodernism At the center of the book is a discussion of the quintessentially classic Valéry poem *Le Cimetière marin* and the classic qualities it shares with Pindar's third Pythian ode from which Valéry derives the epigraph for his poem

The Man Who Wrote the Perfect Novel Charles J. Shields, 2018-10-15 An engrossing biography of a brilliant novelist underappreciated in his own time who became a twenty first century bestseller from the New York Times bestselling author *The New Yorker* When *Stoner* was published in 1965 the novel sold only a couple of thousand copies before disappearing with hardly a trace Yet the quietly powerful tale of Midwestern college professor William Stoner whose life becomes a parable of solitude and anguish eventually found an admiring audience in America and especially in Europe The New York Times called *Stoner* a perfect novel and a host of

writers and critics including Colum McCann Julian Barnes Bret Easton Ellis Ian McEwan Emma Straub Ruth Rendell C P Snow and Irving Howe praised its artistry The New Yorker deemed it a masterly portrait of a truly virtuous and dedicated man This biography traces the life of Stoner s author John Williams Charles J Shields follows the whole arc of Williams s life which in many ways paralleled that of his titular character from their shared working class backgrounds to their undistinguished careers in academia Shields vividly recounts Williams s development as an author whose other works include the novels Butcher s Crossing and Augustus for the latter Williams shared the 1972 National Book Award Shields also reveals the astonishing afterlife of Stoner which garnered new fans with each American reissue and then became a bestseller all over Europe after a Dutch publisher brought out a translation in 2013 Since then Stoner has been published in twenty one countries and sold over a million copies Like Williams Shields know how to tell a good story one that will appeal especially to those interested in the ins and outs of the publishing industry and the ups and downs of a writer s life Los Angeles Review of Books

Poetry, Modernism, and an Imperfect World Sean Pryor, 2017-03-06 Diverse modernist poems far from advertising a capacity to prefigure utopia or save society understand themselves to be complicit in the unhappiness and injustice of an imperfect or fallen world Combining analysis of technical devices and aesthetic values with broader accounts of contemporary critical debates social contexts and political history this book offers a formalist argument about how these poems understand themselves and their situation and a historicist argument about the meanings of their forms The poetry of the canonical modernists T S Eliot Mina Loy and Wallace Stevens is placed alongside the poetry of Ford Madox Ford better known for his novels and his criticism and the poetry of Joseph Macleod whose work has been largely forgotten Focusing on the years from 1914 to 1930 the book offers a new account of a crucial moment in the history of British and American modernism
