could be used in noncombat homeland security missions or to help the nation recover from terrorist attacks or natural disasters in U S territories Among the combat recommendations to come from the COG insights are that abilities need to be enhanced to reconfigure carrier air wings among noncombat recommendations are that the availability of nonready carriers to respond to unforeseen crises needs to be improved This monograph summarizes the activities findings and recommendations of both carrier COGs It should be of special interest to the Navy and to uniformed and civilian decisionmakers with responsibilities related to naval and carrier operations maritime domain awareness or homeland security
