The Column Of Antoninus Pius:

The Column of Antoninus Pius Lise Vogel, 1973 *The Mound Builders* H. C. Shetrone, 1930 *Studies on the Column of Antoninus Pius* Lise Ann Vogel, 1968 Lise Vogel: The Column of Antoninus Pius Georg Daltrop, 1975 *The Beautiful Burial in Roman Egypt* Christina Riggs, 2006-01-06 This important new study looks at the intersection of Greek and Egyptian art forms in the funerary sphere of Roman Egypt A discussion of artistic change cultural identity and religious belief foregrounds the detailed analysis of more than 150 objects and tombs many of which are presented here for the first time In addition to the information it provides about individual works of art supported by catalogue entries the study explores fundamental questions such as how artists combine the iconographies and representational forms of different visual traditions and why two distinct visual traditions were employed in Roman Egypt *Palladio's Rome* Architect Andrea Palladio, Andrea Palladio, Vaughan Hart, Peter Hicks, 2006-01-01 Andrea Palladio 1508 1580 one of the most famous architects of all time published two enormously popular guides to the churches and antiquities of Rome in 1554 Striving to be both scholarly and popular Palladio invited his Renaissance readers to discover the charm of Rome s ancient and medieval wonders and to follow pilgrimage routes leading from one church to the next He also described ancient Roman rituals of birth marriage and death Here translated into English and joined in a single volume for the first time Palladio s guidebooks allow modern visitors to enjoy Rome exactly as their predecessors did 450 years ago Like the originals this new edition is pocket sized and therefore easily read on site Enhanced with illustrations and commentary the book also includes the first full English translation of Raphael s famous letter to Pope Leo X on the monuments of ancient Rome For architectural historians tourists and armchair travelers this book offers fresh and surprising insights into the antiquarian and ecclesiastical preoccupations of one of the greatest of the Renaissance architectural masters Death and the Emperor Penelope J. E. Davies, 2010-06-28 The role of monuments in the Roman imperial cult Davies sets out to ask How did the Romans bury Caesar And with what monuments did they sing his praises The architectural elaboration of these structures their siting in the capital the lines of vision and approaches that exposed them to view the paths their complex outworks formed for visitors to walk are all picked out with skill and presented with care in *Death and the Emperor* Times Literary Supplement This concise and lucidly written book is a very valuable new contribution to the studies of Roman imperial cult political propaganda and topography and has the added benefit of discussing complex scholarly disputes in a manner that the non specialist will probably follow with ease There is material in this volume that will be immensely useful to researchers in many areas archaeology history of architecture iconography history of religion and Roman political propaganda to name just a few I strongly recommend it to scholars interested in any or all of the above topics Bryn Mawr Classical Review Even though its focus is on only seven specimens of architecture the book touches upon a broad array of aspects of Roman imperial culture Elegantly written and generously illustrated this book should be of great interest to the general public as well as to the

scholarly community American Journal of Archaeology **The Critical Review, Or, Annals of Literature** Tobias Smollett, 1802 **Encyclopedia of the History of Classical Archaeology** Nancy Thomson de Grummond, 2015-05-11 With 1 125 entries and 170 contributors this is the first encyclopedia on the history of classical archaeology It focuses on Greek and Roman material but also covers the prehistoric and semi historical cultures of the Bronze Age Aegean the Etruscans and manifestations of Greek and Roman culture in Europe and Asia Minor The Encyclopedia of the History of Classical Archaeology includes entries on individuals whose activities influenced the knowledge of sites and monuments in their own time articles on famous monuments and sites as seen changed and interpreted through time and entries on major works of art excavated from the Renaissance to the present day as well as works known in the Middle Ages As the definitive source on a comparatively new discipline the history of archaeology these finely illustrated volumes will be useful to students and scholars in archaeology the classics history topography and art and architectural history *Sacred Founders* Diliانا Angelova, 2015-09-02 Diliانا Angelova argues that from the time of Augustus through early Byzantium a discourse of sacred founders articulated in artwork literature imperial honors and the built environment helped legitimize the authority of the emperor and his family The discourse coalesced around the central idea bound to a myth of origins that imperial men and women were sacred founders of the land mirror images of the empire's divine founders When Constantine and his formidable mother Helena established a new capital for the Roman Empire they initiated the Christian transformation of this discourse by brilliantly reformulating the founding myth Over time this transformation empowered imperial women strengthened the cult of the Virgin Mary fueled contests between church and state and provoked an arresting synthesis of imperial and Christian art *Sacred Founders* presents a bold interpretive framework that unearths deep continuities between the ancient and medieval worlds recovers a forgotten transformation in female imperial power and offers a striking reinterpretation of early Christian art
