David Gilbreath Barton, 2021-10-05 This is the story of a man who tried to resurrect the spirit of democratic life He was born into a time of chaos and absurdity and he took it as his fate to carry a candle into the night This is his story and the story of many others the writers artists actors and philosophers who took it upon themselves to remember a tradition that had failed so miserably it had almost been forgotten V clav Havel 1936 2011 the famous Czech dissident intellectual and playwright was there when a half million people came to Wenceslas Square to demand an end to Communism in 1989 Many came to hear him call for a free Czechoslovakia for democratic elections and a return to Europe The demonstrators roared when he spoke Havel to the castle they chanted meaning Havel for president And a few weeks later Havel became a most unusual president He was sometimes misunderstood and not always popular but by the time of his death in 2011 the world recognized Havel as one of the most prominent figures of the twentieth century Born into one of the most prominent and wealthy families in Prague Havel was the constant subject of attention and an artistic eccentric in a family of businessmen A young Havel and his family were cast by the Communist takeover as class enemies Havel traveled a dark road that ironically provided the experiences he needed to reconnect not only to his own ground of being but to the traditions of civic society This biography is the story of Havel s inward journey in his underground years and thus the story of how Havel the outsider became the ultimate insider as president of the nation In this intimate and sweeping portrayal of Havel David Barton reveals the eccentricities of the last president of Czechoslovakia and the first president of the Czech Republic *The Underside of Politics* Sorin Radu Cucu, 2013-06-21 This book argues that during the Cold War modern political imagination was held captive by the split between two visions of universality freedom in the West versus social justice in the East and by a culture of secrecy that tied national identity to national security Examining post 1945 American and Eastern European interpretive novels in dialogue with each other and with postfoundational democratic theory *The Underside of Politics* brings to light the ideas forces and circumstances that shattered modernity s promises such as secularization autonomy and rights on both sides of the Iron Curtain In this context literary fictions by Kundera and Roth Popescu and Coover Ki and DeLillo become global as they reveal the trials of popular sovereignty in the fog of the Cold War and trace the elements around which its world discourse or global picture is constructed the atom bomb Stalinist show trials anticommunist propaganda totalitarian terror secret military operations and political targeting Area Handbook for Bulgaria Eugene K. Keefe, 1974 General study of Bulgaria covers historical and geographical aspects demographic aspects and social structures ethnic groups religion living conditions education the fine arts the political system the administration of justice the economic structure the communist political party mass media international relations trade labour force agriculture industry defence etc Bibliography pp 301 to 316 maps and statistical tables *The Making of Détente* Keith L. Nelson, 2019-12-01 Originally published in 1995 In the early 1970s largely as a result of the debilitating struggle in Vietnam the United States began to reassess and redefine

its basic approach to East West relations At the same time the Soviet Union was awakening to the liabilities that a continuing and unregulated state of hostility would impose on its own internal and external agenda Keith Nelson details the circumstances and traces the steps that led to the first significant accommodation and easing of tension between the superpowers during the Cold War In this important study Keith Nelson explains the detente period in an imaginative convincing and impressively scholarly manner Although there have been scores of books and memoirs on the subject none have done the job quite like Nelson s In particular he has used post glasnost Russian memoirs and monographs and especially his own interviews with such key players as Dobrynin and Arbatov to present one of the most intelligent Kremlinological studies I have ever seen Melvin Small Wayne State University **The Publishers Weekly** ,1972

Television in Europe Eli Noam,1992-02-06 Like its companion volume Telecommunications in Europe this book deals with the evolution of powerful monopoly institutions in the communications field the public broadcasters and the dramatic changes that took place in the late 1980s throughout Europe and transformed the media landscape It provides a comprehensive view of European broadcasting systems using the perspective of economics and policy analysis The introductory part offers a framework for understanding media and the forces of change affecting them The main section is a unique series of chapters covering the broadcast and cable television systems of almost thirty European countries
