The Complete Machinegun 1885 To The Present:

The Complete Machine-gun Ian V. Hogg, 1979 **The Complete Machine-gun, 1885 to the Present** Ian Vernon Hogg, 1979 *Misguided Weapons* Azriel Lorber, 2002

Technological failure results when one side in a conflict does not fully grasp the potential impact of known or even familiar weapons in the enemy's hands. In most cases such failure resulted from higher officials' ignorance or their total misunderstanding of the importance and relevance of such technology and science as well as of their application to warfare. Technological failure is also the root cause of technological surprise. While operational surprise on the battlefield poses grave problems, technological surprise is far more serious because, as Azriel Lorber explains, it often leads to disasters on the battlefield and is more difficult to recover from. In too many cases technological failure and surprise stem from all too human characteristics such as self-satisfaction, disdain for the adversary, obtuseness, and conservatism. Because these traits show no evidence of disappearing, political decision makers and military commanders should be aware that technological failure and technological surprise could happen at any time.
