T. Collins, 2016-08-12 This is a story about six men who went to a medical college in Texas during the 1970s It is blackly humorous and often shocking as it examines the hidden side of medical education and its effects on the lives of students and patients in a university hospital Those who read it may never again feel quite the same about doctors The main character has enrolled in order to avoid military service during the Vietnam War thus he sees medical school from the unique viewpoint of an insider who as yet has no desire to become part of the system He soon finds himself locked in a fiercely competitive academic struggle that absorbs and eventually obsesses him When the war ends he is halfway through the program No longer able to walk away he decided to stay on He makes a promise to himself to retain his individuality and to never become an apologist for the establishment In spite of this he is gradually corrupted and becomes involved in some very questionable activities Finally the protagonist reaches his turning point and acts to expose a case of human experimentation whose subjectspatients on a cancer ward have not given their informed consent His medical career ends when he is cast out as a result of what has probably been the first moral act of his life **Michigan Ensian** , Encyclopedia of Adolescence Roger J.R. From Binge to Blackout Chris Volkmann, Toren

Volkmann, 2006-08-01 Throughout his college years Toren Volkmann partied like there was no tomorrow having what was supposed to be the time of his life Like so many parents his mother Chris overlooked Toren's growing alcohol problem But when he graduated Toren realized he'd become a full blown alcoholic And he was not alone Considered a rite of passage teenage drinking has skyrocketed to epidemic proportions fostering a generation of young adults whose lives are already beginning to come apart under the strain This book written from the viewpoints of both mother and son is a riveting enlightening and heartbreakingly true story of a family that was able to confront the fear pain and denial that threatened to destroy them and survive the epidemic of teenage drinking that's putting America's future at risk
