Greenberg, William Wells Brown, Robert Levine, 2003-10-17 **A Study Guide for Mark Twain's "The Tragedy of Pudd'nhead Wilson"** Gale, Cengage Learning, 2016-07-12 A Study Guide for Mark Twain s *The Tragedy of Pudd'nhead Wilson* excerpted from Gale s acclaimed *Novels for Students* This concise study guide includes plot summary character analysis author biography study questions historical context suggestions for further reading and much more For any literature project trust *Novels for Students* for all of your research needs *Eighty-eight Years* Patrick Rael, 2015 Why did it take so long to end slavery in the United States and what did it mean that the nation existed eighty eight years as a house divided against itself as Abraham Lincoln put it The decline of slavery throughout the Atlantic world was a protracted affair says Patrick Rael but no other

nation endured anything like the United States Here the process took from 1777 when Vermont wrote slavery out of its state constitution to 1865 when the Thirteenth Amendment abolished slavery nationwide Rael immerses readers in the mix of social geographic economic and political factors that shaped this unique American experience He not only takes a far longer view of slavery's demise than do those who date it to the rise of abolitionism in 1831 he also places it in a broader Atlantic context We see how slavery ended variously by consent or force across time and place and how views on slavery evolved differently between the centers of European power and their colonial peripheries some of which would become power centers themselves Rael shows how African Americans played the central role in ending slavery in the United States Fueled by new Revolutionary ideals of self rule and universal equality and on their own or alongside abolitionists both slaves and free blacks slowly turned American opinion against the slave interests in the South Secession followed and then began the national bloodbath that would demand slavery's complete destruction

Breaking the Frames Marc Singer, 2019-01-09 Comics studies has reached a crossroads Graphic novels have never received more attention and legitimation from scholars but new canons and new critical discourses have created tensions within a field built on the populist rhetoric of cultural studies As a result comics studies has begun to cleave into distinct camps based primarily in cultural or literary studies that attempt to dictate the boundaries of the discipline or else resist disciplinarity itself The consequence is a growing disconnect in the ways that

comics scholars talk to each other or more frequently do not talk to each other or even acknowledge each other's work

Breaking the Frames Populism and Prestige in Comics Studies surveys the current state of comics scholarship interrogating its dominant schools questioning their mutual estrangement and challenging their propensity to champion the comics they study Marc Singer advocates for greater disciplinary diversity and methodological rigor in comics studies making the case for a field that can embrace more critical and oppositional perspectives

Working through extended readings of some of the most acclaimed comics creators including Marjane Satrapi Alan Moore Kyle Baker and Chris Ware Singer demonstrates how comics studies can break out of the celebratory frameworks and restrictive canons that currently define the field to produce new scholarship that expands our understanding of comics and their critics

Identity and the Failure of America John Michael, 2008 From Thomas Jefferson to John Rawls justice has been at the center of America's self image and national creed At the same time for many of its peoples from African slaves and European immigrants to women and the poor the American experience has been defined by injustice oppression disenfranchisement violence and prejudice In *Identity and the Failure of America* John Michael explores the contradictions between a mythic national identity promising justice to all and the realities of a divided hierarchical and frequently iniquitous history and social order Through a series of insightful readings Michael analyzes such cultural moments as the epic dramatization of the tension between individual ambition and communal complicity in *Moby Dick* attempts to effect social change through sympathy in the novels of Lydia Marie Child and Harriet Beecher Stowe Ralph Waldo Emerson's antislavery activism and Frederick Douglass's long fight for racial equity and the divisive figures of John Brown and Nat Turner in American letters and memory Focusing on exemplary instances when the nature of the United States as an essentially conflicted nation turned to force Michael ultimately posits the development of a more cosmopolitan American identity one that is more fully and justly imagined in response to the nation's ethical failings at home and abroad John Michael is professor of English and of visual and cultural studies at the University of Rochester He is the author of *Anxious Intellectuals* *Academic Professionals* *Public Intellectuals* and *Enlightenment Values* and *Emerson and Skepticism* *The Cipher of the World*
