

Functions of Hair

Anagen/growth phase

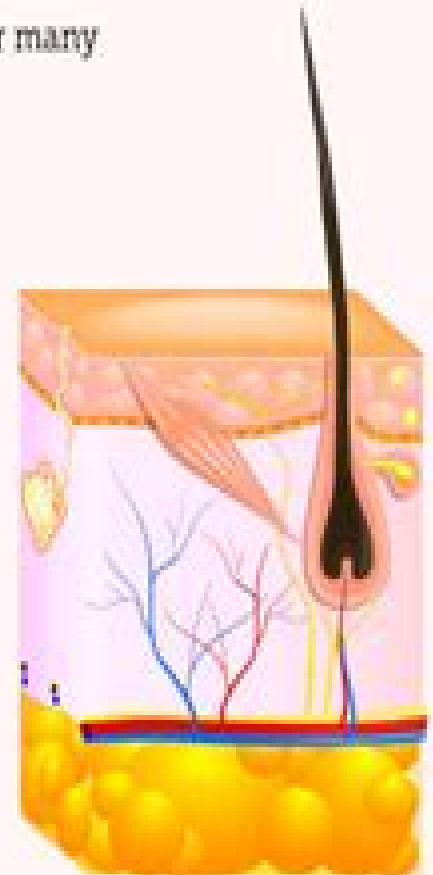

During this particular phase, the majority of the hair will be grown. This period lasts for many years for each individual hair.

Catagen/transitional phase

The length of time that the hair takes to develop and the size of the hair follicle both slow down at this time

Telogen/resting phase

The process of new hair development is halted for a number of months, during which time the older hairs get detached from the hair follicles.

The Hair Fibre: Proteins, Structure and Development Jeffrey E. Plowman, Duane P. Harland, Santanu Deb-Choudhury, 2018-05-24 Hair is a sophisticated bio based material whether it is on a human head or part of a mammalian coat In particular the role of the proteins in the follicle integral to hair development are not well understood This new book seeks to integrate the latest research in proteomic and morphological studies into a coherent description of fibre development from the follicle to its final

mature keratinized form To achieve this the book has been divided into three sections The first describes the keratins their associated proteins and how they assemble into intermediate filaments in the fibre The second covers the latest information on the morphological changes that occur from the base of the follicle through the keratinization process to the mature fibre and the role that proteins play in this The final section delves into fundamental fibre properties such as crosslinking thermal and oxidative modifications and how these affect the mature fibre The editors of this book are internationally recognised for their work in the area of mammalian hair Jeffrey Plowman for his knowledge of the proteomics of the fibre Santanu Deb Choudhury for his work in the area of crosslinking in the fibre and Duane Harland for his understanding of the morphological development of the fibre Together they have collected material from other international experts Leopold Eckhart and Florian Ehrlich for their knowledge of the evolution of keratins Dong Dong Wu and David Irwin for their studies on keratin associated protein evolution David Parry and Bruce Fraser for their work on keratin and keratin associated protein structure and assembly John McKinnon for his studies on macrofibril formation Crisan Popescu for the thermodynamics of keratins and Jolon Dyer for his oxidative modification studies of keratins This book provides a comprehensive introduction and useful reference guide to hair biology and will be of interest to both scientists and technologists

The Art of Preserving the Hair; on Philosophical Principles. By the Author of the Art of Improving the Voice, 1825 The Hair The Glory: The Uniqueness of the Black Hair Omoike Eric Aizenofe, Written in a style that will both challenge readers and create the sense of joining in a confiding conversation with a friend The Hair The Glory provides a new perspective on a complexly resonant topic and sets us on a voyage to empowerment It is a fantastically interesting and original book which explores Black hair through the prism of religion culture and history The Hair The Glory takes the seemingly insurmountable task of contextualizing the contributions trials complexities and beauty of the black hair experience in ways that not only allows you to see black people in their truer light but leaves you with a hunger to learn more The author Omoike Eric Aizenofe explores both his personal story and the larger history of the Black hair with a fierce sense of purpose passion and an appealing eclecticism This book is a must read and more importantly one that must be taught to the younger generation of black people
