The famous scientist and philosopher Blaise Pascal memorably said that the heart has its reasons the mind will never know But too often it s forgotten that Pascal in referring to the heart s reasons was not talking about hunches or cozy feelings Instead he had in mind our intuitive knowledge of the first principles of number time space and motion And he believed God can be known in the same way so that belief in God has the same justification as scientific and mathematical principles Was he right In *Knowing with the Heart* Roy Clouser develops a broad compelling case for Pascal s position Against the current climate of religious relativism Clouser concludes that Christians are entitled to say they know God is real Written in clear and nontechnical language *Knowing with the Heart* is intended for believers concerned with the credentials of their faith and those who don t believe in God but are willing to investigate and reconsider MaCheri The Heart Will Know Jai Danglar, *A Heart to Know Him* Lynne

bypass grafting As a cardiologist I have not yet met a patient who expected to have a problem patients do not put into their diaries possible problem with my heart next week Yet what if we could be forewarned about or prepared for a potential problem with our coronary arteries What if we were able to put in place preventative measures that may avert a problem What if we were able to take away the surprise of a heart attack occurring out of the blue and replace possible fear with prepared understanding
