The Closer We Get:

Department of the Interior and Related Agencies Appropriations for Fiscal Year 1974 United States. Congress. Senate. Committee on Appropriations, 1973 Carbon Footprint Wars Stuart Sim, 2009-05-25 Climate change is acknowledged to be the major problem currently facing the human race and the need to reduce our carbon footprint becomes ever more urgent as the scientific predictions of the effects of climate change become increasingly dire Whether we are fully aware of the social and political consequences of striving for a significant reduction is more questionable The Carbon Footprint Wars identifies the many dangers inherent in the projected solutions such as retreating from the spread of globalization the current socio economic paradigm for world trade The war of words that is being waged over the appropriate way to deal with our collective carbon footprint has critical implications for us all Stuart Sim examines the issues in detail raising questions about the assumptions being made on both sides of the climate change divide He argues that we must urgently address the problem of how to engineer the best possible trade off between economic survival and ecological disaster and he puts forward some radical suggestions about how we should set about doing so The Directive Rosa Fontana, 2011-11-14 Lynne McKay an introverted college student and a prolific essayist is woefully unaware that she is a recluse in the making Having experienced life vicariously only through the books she has read and overanalyzed she is unprepared when her life is interrupted with the diagnosis of Crohn's disease After being admitted to the hospital Lynne must shed her introverted shell in order to survive With an IV pole in hand and a VIP pass to the marble throne at the ready she reaches out to an unexpected and insistent comrade Peter who suffers from the same disease but has penchants for mischief and empathy During their time in the hospital together Lynne must consider is this diagnosis a second chance at life or is it her death sentence The Directive gives a face and personality to a disorder that is often misunderstood It exposes the world of Crohn's disease and its prognosis treatments and concerns through humor science and the deep insights of its youthful characters
