The Cobra Event:

The Cobra Event Richard Preston, 1998-08-29 One of those books you literally can't put down makes The Hot Zone virus far away in a rainforest look like no big deal Detroit Free Press Five days ago a homeless man on a subway platform died in agony as startled commuters looked on Yesterday a teenager started having violent uncontrollable spasms in art class Within minutes she too was dead Dr Alice Austen is a medical pathologist at the Centers for Disease Control in Atlanta What she knows is that the two deaths are connected What she fears is that they are only the beginning Manages to grab you with the authenticity of its scientific detective work and haunt you with its sheer plausibility Entertainment Weekly

The Cobra Event Richard Preston, 2007-04-10 The Cobra Event is set in motion one spring morning in New York City when a seventeen year old student wakes up feeling vaguely ill Hours later she is having violent seizures blood is pouring out of her nose and she has begun a hideous process of self cannibalization Soon other gruesome deaths of a similar nature have been discovered and the Centers for Disease Control sends a forensic pathologist to investigate What she finds precipitates a federal crisis The details of this story are fictional but they are based on a scrupulously thorough inquiry into the history of biological weapons and their use by civilian and military terrorists Richard Preston's sources include members of the FBI and the United States military public health officials intelligence officers in foreign governments and scientists who have been involved in the testing of strategic bioweapons The accounts of what they have seen and what they expect to happen are chilling The Cobra Event is a dramatic heart stopping account of a very real threat told with the skill and authority that made Preston's The Hot Zone an internationally acclaimed bestseller *The Cobra Event* Richard / Spencer LaVyrle / McNab

Anthrax Philipp Sarasin, 2006 Many security experts believe that the next act of widespread terrorism will likely come from a weapon of biochemical means In *Anthrax Bioterror as Fact and Fantasy* Philipp Sarasin explores the real threats of biological weapons in contrast to the idea of biological substances as nebulous agents of terror by analyzing the anthrax scares that occurred in the United States in 2001 Sarasin argues that while threats of bioterrorism are real they are disproportionate to the fantasmal fears that now permeate American politics and culture
