hazards disasters and the pertinent planning factors for each within the scope of DSCA *Military Chaplains in Afghanistan, Iraq, and Beyond* Eric Patterson, 2014-08-07 The role of military chaplains has changed over the past decade as Western militaries have deployed to highly religious environments such as East Africa Afghanistan and Iraq U S military chaplains who are by definition non combatants have been called upon by their war fighting commanders to take on new roles beyond providing religious services to the troops Chaplains are now also required to engage the local citizenry and provide their commanders with assessments of the religious and cultural landscape outside the base and reach out to local civilian clerics in hostile territory in pursuit of peace and understanding In this edited volume practitioners and scholars chronicle the changes that have happened in the field in the twenty first century Using concrete examples this volume takes a critical look at the rapidly changing role of the military chaplain and raises issues critical to U S foreign and national security policy and diplomacy *Brigade Commander's Battle Staff Handbook* Charles R. André, 1996 **Religion on the Battlefield** Ron E. Hassner, 2016-05-18 How does religion shape the modern battlefield Ron E Hassner proposes that religion acts as a force multiplier both enabling and constraining military operations This is true not only for religiously radicalized fighters but also for professional soldiers In the last century religion has influenced modern militaries in the timing of attacks the selection of targets for assault the zeal with which units execute their mission and the ability of individual soldiers to face the challenge of war Religious ideas have not provided the reasons why conventional militaries fight but religious practices have influenced their ability to do so effectively In *Religion on the Battlefield* Hassner focuses on the everyday practice of religion in a military context the prayers rituals fasts and feasts of the religious practitioners who make up the bulk of the adversaries in bystanders to and observers of armed conflicts To show that religious practices have influenced battlefield decision making Hassner draws most of his examples from major wars involving Western militaries They include British soldiers in the trenches of World War I U S pilots in World War II and U S Marines in Iraq and Afghanistan Hassner shows that even modern rational and bureaucratized military organizations have taken and must take religious practice into account in the conduct of war
