

THE COMMUNIST MOVEMENT FROM COMINTERN TO COMINFORM

Russell Jacoby

The Communist Movement from Comintern to Cominform. by Fernando Claudin. Two volumes. New York: Monthly Review Press, 1975. 644pp. + notes and index. \$11.90 (paper).

Debunking and muckraking have always been strengths of the left; nonetheless the left has continuously bred myths about its own past. At times these are harmless, mere odes to past heroes; but often they are less innocent — layers of misconceptions that perpetuate ill-founded theories and practices. In recent years at least three separate elements have nurtured kindred myths about the history of Marxism, and specifically about the history of the Third International: the demise of the new left, the legacy of anti-communism, and the Chinese Revolution. Each of these has conspired, as it were, to defraud the left of its own past. Each of these has promoted a saccharin history of Marxism and Leninism.

The decline of the new left brought in its wake a re-evaluation — at least instinctively — of the older left, the traditional Communist Parties. The new left tended to be written off as an utter failure; and next to complete failure, even minimal success appears as heroic achievement. Many began, or are beginning, to look back to the Communist Party of the 1930s, 1940s, and 1950s as embodying a coherency, organization, and direction that the new left could not obtain.

The legacy of anti-communism made the left reluctant to criticize the past Communist Party for fear of joining in the fray. The left would naturally prefer to honor and defend those maligned, suppressed, and often jailed. Yet the suspicion of anti-communism has paralyzed any sharp criticism of the Communist Party (and Parties) by the left itself.

The impact of the Chinese Revolution on the North American left has intensified this positive image of the "older" left and the Third International. The official Chinese position — despite eroding sympathy for current China — has by now passed into common left discourse; the Chinese defend Stalin, and by extension the Third International, against his successors, who are denounced as revisionists. The reasons for this Chinese position are not entirely clear, for it is evident that Stalin's

policies were at best obstacles, and at times lethal ones, for the Chinese Revolution. The recently-published unofficial writings of Mao are only more proof of the deep divergence between Mao and Stalin, and between the Chinese and Russian revolutionary paths.¹ In any case this Chinese position, and/or its interpretation by the U.S. left, has added immeasurably to the mythology of an "unrevisionist" Marxism during Stalin's life.

Because of these developments the left has been succumbing to nostalgia about the Communist Parties of the 1920's through 1950's. The past appears redder as the present grows grayer. Those who prefer nostalgia to reality, or those who prefer history sweetened and sugared, or those who believe that Marxists should not criticize their own past — all these should be warned: stay away from Fernando Claudin's *The Communist Movement*. Claudin tells it like it was, and it was not pretty. In an era of mythology, synthetic religion, and phony history, Claudin has given us the raw stuff, unexpurgated Marxism. And this is not a tale of endless victories by the righteous proletariat guided scientifically by Marxism-Leninism.

Claudin himself notes that his book has a "negative" cast, but he does not apologize. As is clear from his own account, perhaps the most damaging ritual of the Third International was its interpretation of defeats and setbacks as progress. That there were defeats and mistakes, is, of course, to be expected; but the insistence — and command — to treat them as advances corroded the honesty, integrity, and morale of leadership and membership alike. The massacre of Chinese communists by Chiang Kai-shek in 1927 and the victory of Nazism in Germany in 1933 (to cite just two instances) were presented as progress. Here the critique of ideology — Marxism itself — became an ideology. Claudin breaks decisively with this Marxist convention, and he is not shy in concluding that the "historical balance-sheet" of the Comintern is "alarmingly negative."

Claudin does not analyze simply as an observer. He was a member of the Spanish Communist Party for several decades, until he was expelled in 1965. At that time he began "a settlement of accounts with 25 years of education in Stalinism." By his own admission that project took him further and deeper than he anticipated. He was led back to the first years of the Third International, where he found the roots of some of the later mistakes and defeats — not excepting Lenin. The result is these two substantial volumes, with a third on the way.

To be sure, there is very little that is absolutely new in these volumes, or that has not been said before and elsewhere. But no one till now has been able to put it all together. Claudin's strength lies in his weaving the many threads of the Comintern and the national parties into a single coherent story. In
