The Happy Life:

A Short Guide to a Happy Life Anna Quindlen, 2001-04-01 1 New York Times bestselling author Anna Quindlen's classic reflection on a meaningful life makes a perfect gift for any occasion. Life is made of moments, small pieces of silver amidst long stretches of tedium. It would be wonderful if they came to us unsummoned but particularly in lives as busy as the ones most of us lead now that won't happen. We have to teach ourselves now to live, really live, to love the journey, not the destination. In this treasure of a book, Anna Quindlen, the bestselling novelist and columnist, reflects on what it takes to get a life to live deeply every day and from your own unique self rather than merely to exist through your days. Knowledge of our own mortality is the greatest gift God ever gives us. Quindlen writes because unless you know the clock is ticking, it is so easy to waste our days, our lives. Her mother died when Quindlen was nineteen. It was the dividing line between seeing the world in black and white and in Technicolor. The lights came on for the darkest possible reason. I learned something enduring in a very short period of time about life. And that was that it was glorious and that you had no business taking it for granted. But how to live from that perspective to fully engage in our days. In **A Short Guide to a Happy Life**, Quindlen guides us with an understanding that comes from knowing how to see the view, the richness in living.

The Happy Life Formula Nils Salzgeber, 2018-04-13 Want to feel more alert, energetic and alive? Do you dream of acting with more generosity, compassion and forgiveness? Or do you just wish to exhibit greater control over how you feel? The solution to these questions lies in the new science of happiness, a science that explains precisely what determines our level of happiness and outlines the simple changes we can make to reliably and consistently alter how we feel. The truth is everybody wants to be happy, but none of us know how happiness works. We look for it in our careers, faster cars, more money, hotter bodies or better TV shows. In other words, we're chasing after it. But happiness isn't something to be chased after; it's something to be practiced. That's what 20 years of research proves unequivocally. It's just one of many unfounded truisms we buy into that keep us from becoming happy. We learn how to solve all kinds of problems and math equations in school, but we're never taught the science of happiness and how to apply it. This book changes that. **DOWNLOAD The Happy Life Formula: How to Build Your Life Around the New Science of Happiness**. The goal of this book is simple: To teach you how happiness works so that you're in full control of how you feel. You will learn why happiness creates success, not the other way around. 26 proven strategies to boost your level of happiness. Why you don't need a fast car, big mansion or a lot of money to be happy. A step-by-step guide to strategically apply the science of happiness to your life. Why our brains are built for survival rather than happiness and what to do about it. A 5-minute exercise shown to boost your happiness by 25%. Why a happy brain is a productive brain and more fascinating benefits of happiness. The **Happy Life Formula** is full of exercises that will have an immediate positive impact on your well-being. Instead of just telling you to do something, this book provides practical, science-backed action that will create real and lasting change if practiced regularly. Would You Like To Know More?
