The Christian Psychology of Paul Tournier Gary R. Collins,1973 **The Christian Psychology of Paul Tournier** Gary Collins,1973-01-01 *The Strong and the Weak* Paul Tournier,2013-01-07 The notion that there are two kinds of human beings the strong and the weak is dispelled in this helpful and balanced study of psychic strength and spiritual strength We are much more alike than we may think says Paul Tournier the renowned Swiss psychotherapist and student of the Bible What is different is the external mask that hides identical inner weaknesses and fears All of us are afraid of others of God of ourselves of life and of death What distinguishes us from one another is the way we react to our common distress In vivid case histories from his notebook Dr Tournier illustrates the importance of self understanding in the advancement of healing in Christian freedom He turns to the Bible to show that the Christian message of sin and grace helps us to accept ourselves realistically in the confidence that God has already accepted us in Jesus Christ It is through the power derived from Him that we are enabled to find hope and freedom from fear This book with its refreshing insights into the parts played by psychology and religion in human problems opens up new perspectives for people seeking self knowledge and provides an invaluable resource for pastoral and other counselors *The Seasons of Life* Paul Tournier,2012-09-01 In the light both of the Bible and of modern science we are confronted not with an abstract and generalized man but with men who are concrete and personal They are always in their context in a certain relationship to the world to others and to God They are always changing This changing is made up of seasons stages in their lives each of which has its own characteristics and peculiar laws It is in this life story that God s plan may be accomplished This is what is intimated by the title *The Seasons of Life* a man in movement continually undergoing change a man living in history unfolding from his birth until his death The very movement implies meaning in life **To Resist or to Surrender?** Paul Tournier,2012-09-01 No one has the right to equate Christianity with weakness or to imagine that the Bible teaches us always to surrender The biblical message proclaims the sovereign greatness of God which transcends all lesser principles or standards which we might wish to draw from it Man s great temptation is to want to know by himself what is good and what is evil He wants to know whether he should withstand or not but without needing any counsel from God What is good in the Bible is not this thing or that It is not a matter of resisting or giving in It is doing what God wants and when he wants it it is total dependence upon his person not upon a moral code *Secrets* Paul Tournier,2012-09-01 Keeping a secret is the first step in becoming an individual Telling it is the second step Learn to Grow Old Paul Tournier,1991-01-01 In this warm sensitive fact filled book Paul Tournier deals specifically with many aspects of aging society s attitude toward the elderly second careers the quality of life financial difficulties boredom health loneliness and facing death He maintains the best way to learn to grow old is to prepare for it throughout life Medicine of the Person John Cox,Alastair V. Campbell,Julia Neuberger,2007 Based on the principle of medicine of the person an attitude that embeds personal relationships and ethics in medical practice this text considers the

ideas of Paul Tournier an influential figure whose thinking has had a substantial impact on the spiritual and psychosocial aspects of routine patient care The Quest for the Inner Human Steven H. Propp, 2013-12-03 Psychology means the study of the soul it is the social science concerned with investigating who we are why we have certain feelings and why we do the things we do Are we no more than a vast assembly of nerve cells and their associated molecules Is biology our genetic inheritance destiny or does social upbringing play a crucial role What are the roles played by Nature and by Nurture Are we purely physical beings or is there an aspect that can be called spiritual This thought provoking novel takes you on a journey of intellectual and emotional exploration considering along the way questions that weve all asked ourselves such as Is it true that we only use 10% of our brains Does playing classical music for infants increase their intelligence Do crime rates go up during a full moon Can hypnosis or post hypnotic suggestions make us do something we wouldnt normally do Does subliminal advertising influence us to buy products Are our memories stored indelibly almost like a tape recorder What causes memory lapses as we age Can repressed traumatic memories be recovered through hypnosis Do some people have multiple personalities How can I tell if someone has a neurosis or a psychosis Do men have an inner feminine side and women an inner masculine Are there innate psychological differences between males and females The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions such as Freudian Jungian and Adlerian Humanistic Existential and Transpersonal as well as Cognitive Emotive and Behaviorist Along the way you will learn about the developmental stages proposed by psychologists such as Erikson Kohlberg Piaget and Fowler and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind Start reading to begin your study of our innermost selves Dictionary of Christian Spirituality Zondervan, 2016-11-22 In recent decades Christian spirituality spiritual formation and spiritual theology have become important concepts in the global evangelical community Consequently an accessible and reliable academic resource is needed on these topics one that will offer a discerning orientation to the wealth of ecumenical resources available while still highlighting the distinct heritage and affirming the core grace centered values of classic evangelical spirituality The Dictionary of Christian Spirituality reflects an overarching interpretive framework for evangelical spiritual formation a holistic and grace filled spirituality that encompasses relational connecting transformational becoming and vocational doing dynamics At the same time contributors respectfully acknowledge the differences between Reformed Holiness and Pentecostal paradigms of the spiritual life And by bringing together writers from around the world who share a common orthodoxy this reference work is truly global and international in both its topical scope and contributors Entries give appropriate attention to concepts concerns and formative figures in the evangelical tradition of spirituality that other reference work neglect They offer a discerning orientation to the wealth of ecumenical resources available exploring the similarities and differences between Christianity and alternate spiritualities without lapsing into relativism The Dictionary of Christian Spirituality is a resource that covers a wide range of
