Kindness to Animals. [Passages on the Treatment of Animals Selected from the Lives of the Saints, and the Writings of the Fathers of the Church and Others. With Plates.] ,1906 Animals in Heaven? Terry

Martin,2024-09-26 Christians of all traditions have often puzzled with the question Do dogs go to heaven Drawing on Catholic teaching and on his long pastoral experience as a parish priest Terry Martin expands that concept to consider wider issues around all animals domesticated and free living and why they are here Within a context of Christian faith he seeks to understand the place of animals in God s complex creation and the relationship that human beings have for good or ill with those animals More than that he looks at the big questions which so many ask about who under God animals are and what meaning if any animal lives have from a Catholic Christian perspective *Animals in the Middle Ages* Nona C.

Flores,2016-01-20 These interdisciplinary essays focus on animals as symbols ideas or images in medieval art and literature

Good News for Animals? Charles R. Pinches,Jay B. McDaniel,2008-05-01 In Good News for Animals fifteen men and women debate the ambiguous legacy of Christian approaches to animals and their well being The book is structured by four questions What has been said about animals in the past What is being said about animals today How should Christians respond to current concerns about animals Contributors Carol Adams John Berkman Richard M Clugston John B Cobb Jr Gary Comstock George Frear William French Stanley Hauerwas L Shannon Jung Andrew Linzey Theodore Walker Tom Regan Rosemary Radford Ruether *Bach Flower Remedies for Animals* Gregory Vlamis,Helen Graham,2012-06-01 Animals Mind Body Spirit Millions of family pets often otherwise physically fit and healthy are put to death every year to give human companions peace and rest from their incontinence unruliness excessive noisiness aggression possessiveness destructiveness or other inconvenience A behavior problem often becomes a terminal disease Indeed euthanasia for behavior problems is the main cause of death in young animals and many people regard it as a treatment The high cost of veterinary attention also results in many animals being discarded or neglected by their owners The consequent price of animal suffering and cost of human regrets and need for welfare services are incalculable They are also avoidable Correcting the behavior problem often saves an animal s life as effectively as surgery or other medical procedures and greatly reduces the suffering of all concerned It does not require expensive behavior therapy or extensive behavior modification on the part of the owner It can be brought about in many cases quite simply and inexpensively through the use of flower essences This book offers descriptions of each of the 38 Bach Flower Remedies and their application to the treatment of a range of domestic animals including horses and farm wild and zoo animals It also describes diagnostic symptoms animal by animal together with appropriate treatment regimens illustrated with case material obtained from veterinarians animal behavior specialists and health practitioners

Other important and helpful areas discussed are emotions in animals and their influence on behavior the emotional bond between animals and humans the pros and cons of thinking of animals in human terms the principles of flower remedies and their suitability for use in the treatment of animals Helen Graham was a Lecturer at Keele University England and is the author of several books on psychology and complementary medicine She breeds Salukis and lives in rural France with her husband Gregory Vlamis is a researcher and author of bestseller *Bach Flower Remedies to the Rescue* He has been researching the life and work of Dr Edward Bach since the early 1970s and divides his time between the USA and Greece

For Love of Animals Charles Camosy, 2013-10-25 *For Love of Animals* is an honest and thoughtful look at our responsibility as Christians with respect to animals Many Christians misunderstand both history and their own tradition in thinking about animals They are joined by prominent secular thinkers who blame Christianity for the Western world's failure to seriously consider the moral status of nonhuman animals This book explains how traditional Christian ideas and principles like nonviolence concern for the vulnerable respect for life stewardship of God's creation and rejection of consumerism require us to treat animals morally Though this point of view is often thought of as liberal the book cites several conservatives who are also concerned about animals Camosy's Christian argument transcends secular politics The book's starting point for a Christian position on animals from the creation story in Genesis to Jesus's eating habits in the Gospels rests in Scripture It then moves to explore the views of the Church Fathers the teachings of the Catholic Church and current discussions in both Catholic and Protestant theology Ultimately however the book is concerned not with abstract ideas but with how we should live our everyday lives Should Christians eat meat Is cooperation with factory farming evil What sort of medical research on animals is justified Camosy also asks difficult questions about hunting and pet ownership This is an ideal resource for those who are interested in thinking about animals from the perspective of Christian ethics and the consistent ethic of life Discussion questions at the end of each chapter and suggestions for further reading round out the usefulness of this important work

Animals as Religious Subjects Celia Deane-Drummond, Rebecca Artinian-Kaiser, David L. Clough, 2013-08-01 This book examines one of the most pressing cultural concerns that surfaced in the last decade the question of the place and significance of the animal This collection of essays represents the outcome of various conversations regarding animal studies and shows multidisciplinary at its very best namely a rigorous approach within one discipline in conversation with others around a common theme The contributors discuss the most relevant disciplines regarding this conversation namely philosophy anthropology religious studies theology history of religions archaeology and cultural studies The first section *Thinking about Animals* explores philosophical anthropological and religious perspectives raising general questions about the human perception of animals and its crucial cultural significance The second section explores the intriguing topic of the way animals have been used historically as religious symbols and in religious rituals The third section re-examines some Christian theological and biblical approaches to animals in the light of current concerns The final section

extends the implications of traditional views about other animals to more specific ethical theories and practices **A**
Heaven for Animals Christopher Steck, 2025-09-02 A transformative perspective on animal afterlife bridging theological reflection and moral action What happens to our beloved companion animals after death Do they and other animals have a place in the divine plan A Heaven for Animals offers a groundbreaking theological rationale for the inclusion of animals in heaven challenging conventional thinking about the role animals have in God's plan Based on Biblical evidence and the doctrine of the Catholic Church Christopher Steck reveals a radical vision of divine grace that extends far beyond human centric perspectives demonstrating how animals are intrinsically part of Christ's redemptive work Accessible to both theological scholars and thoughtful readers seeking deeper spiritual insights this book provides a rigorous and compassionate framework for understanding the sacredness of all creation and the creatures within it A Heaven for Animals invites readers to reimagine their ethical responsibilities suggesting that our treatment of animals should strive to reflect an anticipatory vision of God's inclusive kingdom a transformative perspective that bridges theological reflection and moral action
