The Church Of England The Methodists And Society 1700 185:

The Library Journal Book Review ,1977 **Black Itinerants of the Gospel** G. Hodges,2016-04-30 John Jea b 1773 and George White 1764 c 1830 were two of the earliest African American autobiographers writing nearly a half century before Frederick Douglass published his famous narrative chronicling his experiences as a slave a freedman and an ardent abolitionist Jea and White represent an earlier generation of African Americans that were born into slavery but granted their freedom shortly after American independence in the 1780s Both men chose to fight against slavery from the pulpit as itinerant Methodist ministers in the North Methodism's staunch anti slavery stance acceptance of African American congregants and widespread use of itinerant preachers enhanced black religious practices and services in the late eighteenth century and the nineteenth century Graham Hodges substantial introduction to the book places these two narratives into historical context and highlights several key themes including slavery in the North the struggle for black freedom after the Revolution and the rise of African American Christianity **In Pursuit of Civility** Keith Thomas,2018-06-05 The renowned historian Keith Thomas has written a peerless study of the place of civility in the shaping of English society between the early sixteenth and the late eighteenth centuries Dramatic changes in court fashion and manners took place but equally important was the emergence of an urban trading and manufacturing class with new values and standards of behavior Traditional notions of class gender social custom and Englishness would all be affected by the upheavals of the period Civility emerged in contrast to barbarism as England took its first steps towards global domination Displaying a true master's grasp of the period Thomas offers a compelling and wide ranging analysis of the connections between changing notions of civility the justification of colonial expansion and the invention of race Publisher description **Anti-Blackness in English Religion, 1500-1800** Joseph R. Washington,1984 This work traces the idea of anti blackness where black is a synonym for evil and its relation to anti blackness where Black implies those of native African ancestry **Church and State in Modern Britain 1700-1850** Richard Brown,2002-01-04 In this the second part of his history of the Industrial Revolution Richard Brown examines the political and religious developments which took place in Britain between the 1780s and 1840s in terms of the aristocratic elite and through the expression of alternative radical ideologies Opening with a discussion of the nature of history and of Britain in 1700 it goes on to consider Britain's foreign policy the emergence of the modern state and the mid century crisis of the 1840s Unlike many previous works it emphasises British not just English history It is this diversity of experience and the focus on continuity as well as change women as well as men that makes this a distinctive text Students will also find the theoretical foundations of historical narrative and analysis clearly explained **Periodizing Secularization** Clive D. Field,2019-10-31 Moving beyond the now somewhat tired debates about secularization as paradigm theory or master narrative Periodizing Secularization focuses upon the empirical evidence for secularization viewed in its descriptive sense as the waning social influence of religion in Britain Particular emphasis is attached to the two key

performance indicators of religious allegiance and churchgoing each subsuming several sub indicators between 1880 and 1945 including the first substantive account of secularization during the fin de siècle. A wide range of primary sources is deployed many of them relatively or entirely unknown and with due regard to their methodological and interpretative challenges. On the back of them a cross cutting statistical measure of active church adherence is devised which clearly shows how secularization has been a reality and a gradual not revolutionary process. The most likely causes of secularization were an incremental demise of a Sabbatarian culture coupled with the associated emergence of new leisure opportunities and transport links and of religious socialization in the church at home and in the school. The analysis is also extended backwards to include a summary of developments during the eighteenth and early nineteenth centuries and laterally to incorporate a preliminary evaluation of a six dimensional model of diffusive religion demonstrating that these alternative performance indicators have hitherto failed to prove that secularization has not occurred. The book is designed as a prequel to the author's previous volumes on the chronology of British secularization: *Britain's Last Religious Revival* 2015 and *Secularization in the Long 1960s* 2017. Together they offer a holistic picture of religious transformation in Britain during the key secularizing century of 1880-1980.
