The Circuit Of Force:

The Circuit of Force Dion Fortune, Gareth Knight, 1998 Dion Fortune describes techniques for raising the personal magnetic forces within the human aura and their control and direction in magic and in life which she regards as the Lost Secrets of the Western Esoteric Tradition Gareth Knight provides subject commentaries on various aspects of the etheric vehicle filling in some of the practical details and implications that she left unsaid in the more secretive esoteric climate of the times in which she wrote

Fields of Force William Berkson, 2014-05-09 This book describes the picture of reality given by Newton and the development of the later picture of reality given by field theory In telling this story the author explains what problem each scientist faced and how the process of solving them led to new discoveries By this method he gives unique insight into the understanding of Einstein s special theory of relativity as he explains exactly what problems led to the invention of the theory and exactly where Einstein s solution differed from his predecessors A similar analysis is given of the discoveries of Faraday Maxwell Hertz and Lorentz The problem oriented approach of the book originally published in 1974 enables the reader to share in the original creative process and in the excitement of the discoveries It puts physics problems into new perspective and discusses the philosophical implications of the history an illuminating account of a great episode in the history of thought
