Stiebing, 1994 This study focuses on the development of archaeology as a discipline tracing the milestones in the evolution of systematic excavation It covers the entire history of archaeology from the heroic age 1450 1925 to the advanced stages of archaeology beg      *The Aztecs, the Conquistadors, and the Making of Mexican Culture* Peter O. Koch, 2015-01-09 Tracing events from the discovery of the New World through the fall of the Aztec empire in 1521 this book discusses the battles between the Spanish explorers and the Aztecs battles that culminated in the ruin of a civilization The first half of the work alternates between Aztec and Spanish history discussing events and motivations on each side as the two cultures expanded toward one another on their way to inevitable conflict Placing special emphasis on Aztec mythology and religious beliefs the author explains how the Spanish exploited the Aztecs own cultural practices to insure the success of their invasion The gold

and glory engines driving the Spanish Crown and the actions of contemporary Spanish explorers such as Juan Ponce de Leon and Francisco Cordoba are examined The concluding chapters give a thorough account of the struggle between Hernan Cortes and the Aztec ruler Montezuma including the role of other indigenous tribes in the eventual downfall of the empire The final chapter details the siege of the Aztec capital Tenochtitlan and summarizes the ultimate destruction of the Aztec civilization

*The City* Joel Kotkin, 2007-12-18 If humankind can be said to have a single greatest creation it would be those places that represent the most eloquent expression of our species's ingenuity beliefs and ideals the city In this authoritative and engagingly written account the acclaimed urbanist and bestselling author examines the evolution of urban life over the millennia and in doing so attempts to answer the age old question What makes a city great Despite their infinite variety all cities essentially serve three purposes spiritual political and economic Kotkin follows the progression of the city from the early religious centers of Mesopotamia the Indus Valley and China to the imperial centers of the Classical era through the rise of the Islamic city and the European commercial capitals ending with today's post industrial suburban metropolis Despite widespread optimistic claims that cities are back in style Kotkin warns that whatever their form cities can thrive only if they remain sacred safe and busy and this is true for both the increasingly urbanized developing world and the often self possessed global cities of the West and East Asia Looking at cities in the twenty first century Kotkin discusses the effects of developments such as shifting demographics and emerging technologies He also considers the effects of terrorism how the religious and cultural struggles of the present pose the greatest challenge to the urban future Truly global in scope *The City* is a timely narrative that will place Kotkin in the company of Lewis Mumford Jane Jacobs and other preeminent urban scholars

**The Ancient Maya, 6th Edition** Robert J. Sharer, Loa P. Traxler, 2006 The rich findings of recent exploration and research are incorporated in this completely revised and greatly expanded sixth edition of this standard work on the Maya people New field discoveries new technical advances new successes in the decipherment of Maya writing and new theoretical perspectives on the Maya past have made this new edition necessary

Outside the Hacienda Walls Allan Meyers, 2012-11-01 The Mexican Revolution was a tumultuous struggle for social and political reform that ousted an autocrat and paved the way for a new national constitution The conflict however came late to Yucatán where a network of elite families with largely European roots held the reins of government This privileged group reaped spectacular wealth from haciendas cash crop plantations tended by debt ridden servants of Maya descent When a revolutionary army from central Mexico finally gained a foothold in Yucatán in 1915 the local custom of agrarian servitude met its demise Drawing on a dozen years of archaeological and historical investigation Allan Meyers breaks new ground in the study of Yucatán haciendas He explores a plantation village called San Juan Bautista Tabi which once stood at the heart of a vast sugar estate Occupied for only a few generations the village was abandoned during the revolutionary upheaval Its ruins now lie within a state owned ecological reserve Through oral histories archival records and physical remains Meyers examines various facets of the plantation

landscape He presents original data and fresh interpretations on settlement organization social stratification and spatial relationships His systematic approach to things underfoot small everyday objects that are now buried in the tropical forest offers views of the hacienda experience that are often missing in official written sources In this way he raises the voices of rural mostly illiterate Maya speakers who toiled as laborers What emerges is a portrait of hacienda social life that transcends depictions gleaned from historical methods alone Students researchers and travelers to Mexico will all find something of interest in Meyers s lively presentation Readers will see the old haciendas once forsaken but now experiencing a rebirth as tourist destinations in a new light These heritage sites not only testify to social conditions that prevailed before the Mexican Revolution but also remind us that the human geography of modern Yucatán is as much a product of plantation times as it is of more ancient periods

**Ancient Oaxaca** Richard E. Blanton, Gary M. Feinman, Stephen A. Kowalewski, Linda M. Nicholas, 2022-07-28 Around 500 B C people decided to constitute a government with a new capital The consequence was a total social transformation
