The Classic Maya Collapse

The Classic Maya Collapse:

The Classic Maya Collapse T. Patrick Culbert, 1973 Of the many mysteries surrounding ancient Maya civilization none has attracted greater interest than its collapse in the eighth and ninth centuries AD Until recently speculations on the causes of the collapse have been more numerous than excavated sites in the area But the past twenty five years have produced many new findings In this book thirteen leading scholars use new data to revise the image of ancient Maya civilization and create a new model of its collapse a general model of sociopolitical collapse not limited to the cultural history of the Maya alone

Fall of the Ancient Maya David Webster, 2002-06-04 Ancient Maya civilization thrived in the tropics of Central America for more than a thousand years and produced some of the world's finest architecture and art Then it mysteriously vanished leaving a landscape of ruins smothered by forests The Classic Maya collapse is one of the great puzzles of history ranking alongside the Fall of Rome as an enigma that has intrigued scholars for generations *The Terminal Classic in the Maya Lowlands* Arthur Andrew Demarest, Prudence M. Rice, Don S. Rice, 2005 The Terminal Classic in the Maya Lowlands revisits one of the great problems in Mayan archaeology the apparent collapse of Classic Maya civilization from roughly AD 830 to 950 During this period the Maya abandoned their power centers in the southern lowlands and rather abruptly ceased the distinctive cultural practices that marked their apogee in the Classic period Archaeological fieldwork during the past three decades however has uncovered enormous regional variability in the ways the Maya experienced the shift from Classic to Postclassic society revealing a period of cultural change more complex than acknowledged by traditional models Featuring an impressive roster of scholars The Terminal Classic presents the most recent data and interpretations pertaining to this perplexing period of cultural transformation in the Maya lowlands Although the research reveals clear interregional patterns the contributors resist a single overarching explanation Rather this volume's diverse and nuanced interpretations provide a new more properly grounded beginning for continued debate on the nature of lowland Terminal Classic Maya civilization

Rome and the Classic Maya Rebecca Storey, Glenn R Storey, 2017-01-20 This volume compares two of the most famous cases of civilizational collapse that of the Roman Empire and the Classic Maya world First examining the concept of collapse and how it has been utilized in the historical archaeological and anthropological study of past complex societies Storey and Storey draw on extensive archaeological evidence to consider the ultimate failure of the institutions infrastructure and material culture of both of these complex cultures Detailing the relevant economic political social and environmental factors behind these notable falls Rome and the Classic Maya contends that a phenomenon of slow collapse has repeatedly occurred in the course of human history complex civilizations are shown to eventually come to an end and give way to new cultures Through their analysis of these two ancient case studies the authors also present intriguing parallels to the modern world and offer potential lessons for the future **The Classic Maya Collapse** T. Patrick Culbert, 1977 The Dynamics of Apocalypse John W. G. Lowe, 1985 **Ritual, Violence, and the Fall of the Classic Maya Kings** Gyles Iannone, Brett A.

Houk, Sonja A. Schwake, 2018-11-05 This volume explores the links between the declining prosperity of the Late to Terminal Classic period and the erosion of kingly legitimacy Exploring issues such as the rise of inflation greater demand of tax and tribute deforestation due to over population and drought conditions the essayists examine what happens to a society when the king who should be appeasing the gods is seen as the problem The Classic Maya Collapse Jeffrey Clark Wood, 1977
