The Cocaine Connection:

NarcoDiplomacy H. Richard Friman, 1996 If illicit drug trafficking is a global problem why won't other nations comply with the drug control agenda of the United States NarcoDiplomacy departs from traditional responses to this question which have held that compliance with the American agenda has been beyond the capacity of key countries By focusing on Germany and Japan touted as two of the strongest allies of the United States in drug control efforts H Richard Friman exposes the flaws in capacity arguments and the policies based on them Drawing on sources ranging from previously unknown Imperial German archives to interviews with policy makers and law enforcement officials Friman offers a thorough analysis of bilateral and multilateral relations He traces their evolution from international opium control efforts of the early 1900s through disputes over cocaine and money laundering during the Reagan and Bush antidrug campaigns His work reveals that although the internal logic of the U S posture was sound American policy makers failed to recognize the nature of German and Japanese cooperation and defection or to identify which aspects of capacity were at issue The resulting policy Friman contends actually undermined German and Japanese compliance with the American agenda Extending this analysis to Latin America NarcoDiplomacy explores the ramifications of Friman's findings for the future of U S drug control policy **The**

Cuban Connection Eduardo Sáenz Rovner, 2009-06-01 A comprehensive history of crime and corruption in Cuba The Cuban Connection challenges the common view that widespread poverty and geographic proximity to the United States were the prime reasons for soaring rates of drug trafficking smuggling gambling and prostitution in the tumultuous decades preceding the Cuban revolution Eduardo Sáenz Rovner argues that Cuba's historically well established integration into international migration commerce and transportation networks combined with political instability and rampant official corruption to help lay the foundation for the development of organized crime structures powerful enough to affect Cuba's domestic and foreign politics and its very identity as a nation Sáenz traces the routes taken around the world by traffickers and smugglers After Cuba the most important player in this story is the United States The involvement of gangsters and corrupt U S officials and businessmen enabled prohibited substances to reach a strong market in the United States from rum running during Prohibition to increased demand for narcotics during the Cold War Originally published in Colombia in 2005 this first English language edition has been revised and updated by the author Iran Contra-Connection Hunter, Jonathan Marshall, Peter

Scott, Jane Hunter, 1987 This explosive book lays bare the personalities and institutional relations behind the headlines It goes beyond the recent events to discern the roots of contemporary U S covert activity within the past two decades The Iran Contra Connection delves in to the details of CIA and extra CIA operations including drug trafficking gun running government toppling and assassination The Iran Contra scandal is not merely a plan gone awry the authors argue but a consistent outgrowth of a long tradition of U S covert activity from the Bay of Pigs invasion teams to the NSC organizational team from the CIA and the World Anti Communist League to the Israeli connection and the State Department **The**
