The Coma:

The Coma Alex Garland, 2005-07-05 When Carl awakens from a coma after being attacked on a subway train life around him feels unfamiliar even strange He arrives at his best friend's house without remembering how he got there he seems to be having an affair with his secretary which is pleasant but surprising He starts to notice distortions in his experience strange leaps in his perception of time Is he truly reacting with the outside world he wonders or might he be terribly mistaken So begins a dark psychological drama that raises questions about the human psyche dream versus reality and the boundaries of consciousness As Carl grapples with his predicament Alex Garland author of *The Beach* and the screenplay for *28 Days Later* plays with conventions and questions our assumptions about the way we exist in the world even as it draws us into the unsettling and haunting book about a lost suitcase and a forgotten identity **The Army Lawyer**, 1998

Progressive Medicine Hobart Amory Hare, 1902 A quarterly digest of advances discoveries and improvements in the medical and surgical sciences **Physics of Comets** K. S. Krishna Swamy, 2010 This revised edition places a unique emphasis on all the new results from ground based satellites and space missions detection of molecule H₂ and prompt emission lines of OH for the first time discovery of X rays in comets observed diversity in chemical composition among comets the puzzle of the constancy of spin temperature the well established mineralogy of cometary dust extensive theoretical modeling carried out for understanding the observed effects the similarity in the mineralogy of dust in circumstellar shell of stars comets meteorites asteroids and IDPs thus indicating the generic relationship between them

The American Journal of the Medical Sciences, 1846 **Physics of Meteor Flight in the Atmosphere** Ernst Julius Opik, 2004-08-01 This volume by an astrophysics pioneer concerns the phenomena occurring during the flight of meteors through the terrestrial atmosphere Beginning with a historical view of the study of meteor activity the text examines atmospheric conditions and the classification and physico chemical properties of meteors Also includes meteoroid energy transfer ablation atomic collisions and meteor radiation **The London medical gazette**, 1850 **The Western Medical Reporter**, 1889 The Treatment of Diabetes Mellitus Elliott P. Joslin, 1924 *Comets and How to Observe Them* Richard Schmude, Jr., 2010-09-20 Comets have inspired wonder excitement and even fear ever since they were first observed But they are important members of the solar system that contain material from early in the life of the system held in deep freeze This makes them key in our understanding of the formation and evolution of many Solar System bodies Recent ground and space based observations have changed much in our understanding of comets *Comets and How to Observe Them* gives a summary of our current knowledge and describes how amateur astronomers can contribute to the body of scientific knowledge of comets This book contains many practical examples of how to construct comet light curves measure how fast a comet's coma expands and determine the rotation period of the nucleus All these examples are illustrated with drawings and photographs Because of their unpredictable nature comets are always interesting and sometime spectacular objects to observe and image

The second part of the book therefore takes the reader through the key observing techniques that can be used with commercially available modern observing equipment from basic observations to more scientific measurements
