The Compound:

The Compound S. A. Bodeen, 2008-04-29 Eli's father built the Compound to keep their family safe. Now they can't get out. He won't let them. *The Compound* Robert Sean Morrison, 2017-05-18 After the third civil war the United States was divided into heavily fortified compounds that have become the backbone of a thriving new nation that prides itself on its superior knowledge. The more knowledge one has the higher they rise. Ethan Sharp has reached the highest levels in his compound but when he meets Claire a beautiful woman with a mysterious past and intimate knowledge of their compound he learns of a sinister truth that could destroy the foundation of their entire society. Dr. Jarek Thorne is the head of the Medical Research Department of Compound 13 in Section 7 of Novus Octo and he is Ethan's superior. Thorne's tyrannical experiments on living subjects and prejudice against the lowest group of scorers in the country have Ethan questioning everything he believes to be right and glorious about the new country. After one such experiment causes the death of his own caregiver Ethan feels more hopeless than he ever has before. Ethan is left with a choice of two different paths: ignore who he is and live his life in a defiant haze or give in to his instincts and meet his destiny. Robert Sean Morrison is a sporty nerd with a bachelor's degree in pre physical therapy. You can usually find him at home surrounded by his mountain of DVDs. This is his first published book and he plans to write many more. He and his wife Melissa live in Ponchatoula, Louisiana. *Elements and Compounds* Chris Oxlade, 2007 What is the difference between a compound and a mixture? How do we know what atoms and molecules look like? Who first organized into the periodic table? This title explores how atoms and molecules combine to form elements and compounds, why they are given the names that they have, and how they are used in our everyday lives. You will also find several experiments that can be done at home.
