The Computer My Life:

The Computer - My Life Konrad Zuse, 2013-03-09 Konrad Zuse is one of the great pioneers of the computer age. He created the first fully automated program controlled freely programmable computer using binary floating point calculation. It was operational in 1941. He built his first machines in Berlin during the Second World War with bombs falling all around and after the war he built up a company that was taken over by Siemens in 1967. Zuse was an inventor in the traditional style full of phantastic ideas but also gifted with a powerful analytical mind. Single handedly he developed one of the first programming languages the Plan Calculus including features copied only decades later in other languages. He wrote numerous books and articles and won many honors and awards. This is his autobiography written in an engagingly lively and pleasant style full of anecdotes, reminiscences and philosophical asides. It traces his life from his childhood in East Prussia through tense wartime experiences and hard times building up his business after the war to a ripe old age and well earned celebrity.

My Life as a Computer Cockroach Bill Myers, 1999 When inept Wally McDoogles discovers that whatever he types on his computer turns into reality what starts as just a little cheating soon escalates into a war.

Memoirs of My Life John Charles Frémont, Jessie Benton Frémont, 1887 During his remarkable life John Charles Fremont served as a senator for the newly formed state of California, led Union troops in the Civil War and was governor of the territory of Arizona. His race for the presidency in 1856 brought prestige to the fledgling Republican Party yet despite his popularity his uncompromising determination to abolish slavery cost him the election. For all of his experiences in politics and the military it was the earlier decades of Fremont's life that were the most exciting. Shortly after graduating from college he joined a mapping expedition and surveyed the hills of South Carolina and Tennessee for the government. Eager to continue exploring Fremont went on five more expeditions to America west of the Appalachians during the years from 1839 to 1846. He traveled up the Missouri river, crossed the Rocky Mountains and reached the West Coast on several journeys often with his friend Kit Carson the legendary mountain man. In *Memoirs of My Life* Fremont recounts those years in the wilderness encountering the fabulous landscapes and native people of America's interior before the westward expansion of the U.S. His journeys across the unmapped prairies, mountains and deserts offer a wonderful glimpse of North America's natural grandeur in its original state.

Memoirs of My Life by John Charles Fremont. Including in the Narrative Five Journeys of Western Exploration, During the Years 1842, 1843-4, 1845-6-7, 1848-9, 1853-4. Together with a Sketch of the Life of Senator Benton, in Connection with Western Expansion. By Jessie Benton Fremont. A Retrospect of Fifty Years Covering the Most Eventful Periods of Modern American History. With Maps and Colored Plates. Vol. 1 John Charles Frémont, 1887
