

BEIS Public Attitudes Tracker: Technical Overview Winter 2022, UK

9 MARCH 2023

Official Statistics

This report covers general information about the Public Attitudes Tracker (PAT) survey completed in Winter 2022. More detailed technical information on the survey series, including details of the new data collection methodology adopted in Autumn 2021 and previous methodologies, is available in the annual [Technical Report](#).

Introduction

The BEIS Public Attitudes Tracker (PAT) survey measures public awareness, attitudes and behaviours relating to the policies of the former Department for Business, Energy and Industrial Strategy (BEIS) such as energy, climate change, consumer rights, artificial intelligence and workers' rights.

This report presents summary headline findings from the Winter 2022 survey wave, conducted by the former Department for Business, Energy and Industrial Strategy (BEIS), and is based on a representative sample of 3,571 adults aged 16 or over in the UK. Data collection ran from 17 November 2022 to 19 December 2022.

This is the sixth wave in a series of surveys, which began in Autumn 2021. Earlier waves have been conducted as follows:

- Autumn 2021 (15 September to 17 October 2021)
- Winter 2021 (24 November to 22 December 2021)
- Spring 2022 (24 February to 24 March 2022)
- Summer 2022 (9 June to 7 July 2022)
- Autumn 2022 (1 September to 3 October 2022)

Before Autumn 2021, previous tracker surveys had been conducted covering many of the same topics. In Autumn 2021 the BEIS PAT moved to a 'push-to-web' survey method referred to as Address Based Online Surveying (ABOS). The Winter 2022 wave represents the sixth wave of the new time series following this change in methodology. Significant changes affecting both survey sample and mode mean that the results from this wave are not directly comparable with results collected via surveys conducted using the previous methodology. However, where questions have been included in more than one wave under the new methodology, comparisons between waves are made.

A summary of the methodology is provided below. Full details of the methodology are provided in the annual Technical Report, published alongside the Summer 2022 results.

Winter 2022 survey

The Winter 2022 questionnaire covered the following topics:

- Net Zero
- Climate change
