The Conservative Crack Up:

The Conservative Crack-up R. Emmett Tyrrell, 1992 America's most irreverent conservative takes a hard look at where conservatism is coming from and why it's coming apart Tyrrell is the founder and editor in chief of *The American Spectator* a nationally syndicated columnist and the author of several books on American politics 20 000 **Crackup** Samuel L. Popkin, 2021 Samuel L. Popkin applies his extensive experience with presidents and presidential campaigns to provide a lively extensively researched story of the contemporary Republican Party He shows how reforms intended to take corporate money out of political parties ended up crippling party leadership rendering them unable to cope with a new political landscape In their stead the machinations of billionaires pursuing pet issues and purity for profit activists thrived As Popkin lays bare party rebels such as Ted Cruz exploited these forces to block immigration and healthcare reform opening the door for Trump's election **California Crackup** Joe Mathews, Mark Paul, 2010 California Crackup is brilliant It cuts through the familiar tangle of diagnoses and quick fix solutions to provide a comprehensive and persuasive analysis of California's dysfunctional governmental system Paul and Mathews have coolly laid out a complicated story made it readable sometimes even comedic It is the best discussion of the issue I've seen in over three decades Peter Schrag author of *California America's High Stakes Experiment* I know of no other work that combines so succinctly and enjoyably a historical summary of California's existing problems with such a sweeping and provocative program of reform Ethan Rarick University of California Berkeley Mark Paul and Joe Mathews have produced an indispensable guide to California's crisis of governance and they have done so with humor scholarship fairness and storytelling verve Every Californian should read this book Steve Coll Pulitzer Prize winning author of *Ghost Wars* Mark Paul has a talent for presenting California Big Think stuff in an easily accessible and always readable way offering clear and creative insights on the subject of California's collapse CalBuzz Joe Mathews has done an artful fascinating and convincing job of connecting the California of today's Schwarzenegger era to the long history that made his rise possible James Fallows *The Atlantic Monthly* on Mathews book *The People's Machine* [The Conservative Heartland](#) Jon K. Lauck, Catherine McNicol Stock, 2020-04-17 In the wake of the 2016 presidential election there was widespread shock that the Midwest the Democrats so called blue wall had been so effectively breached by Donald Trump But the blue wall as *The Conservative Heartland* makes clear was never quite as secure as so many observers assumed A deep look at the Midwest's history of conservative politics this timely volume reveals how conservative victories in state houses legislatures and national elections in the early twenty first century far from coming out of nowhere in fact had extensive roots across decades of political organization in the region Focusing on nine states from Iowa and the Dakotas to Indiana and Ohio the essays in this collection detail the rise of midwestern conservatism after World War II a trend that coincided with the transformation of the prewar Republican Party into the New Right This transformation the authors contend involved the Midwest and the Sunbelt states Through the lenses of race class gender and sexuality their essays explore the development

of midwestern conservative politics in light of deindustrialization environmentalism second wave feminism mass incarceration privatization and debates over same sex marriage and abortion among other issues Together these essays map the region's complex patchwork of viable rural and urban areas variously subject to a wide array of conflicting interests and concerns the perspective they provide at once broad and in depth offers unique historical insight into the Midwest's political complexity and its status as the last real competitive battleground in presidential elections **A Companion to**

20th-Century America Stephen J. Whitfield, 2008-04-15 A Companion to 20th Century America is an authoritative survey of the most important topics and themes of twentieth century American history and historiography Contains 29 original essays by leading scholars each assessing the past and current state of American scholarship Includes thematic essays covering topics such as religion ethnicity conservatism foreign policy and the media as well as essays covering major time periods Identifies and discusses the most influential literature in the field and suggests new avenues of research as the century has drawn to a close

The Conservative Century Gregory L. Schneider, 2009 This concise history focuses on the development of American conservatism in the twentieth century up to the present Gregory L Schneider traces the course of a once reactionary movement opposed to progressive reform and the New Deal and describes how it came to advance alternative policies and programs that revolutionized the shaping of domestic politics foreign policy and economic policy Along the way he profiles such influential thinkers as William F Buckley Frank Meyer Henry Regnery and Barry Goldwater He also details how the decline of liberalism after the 1960s helped conservatives gain political power and how their energized activism and organization culminated in the election of Ronald Reagan in 1980 Schneider also describes how the years since the Reagan Revolution have been decidedly mixed for American conservatives *Ideals and Ideologies* Terence Ball, Richard

Dagger, Daniel I. O'Neill, 2016-01-08 *Ideals and Ideologies* A Reader 9 e is a comprehensive compilation of original readings representing all of the major isms It offers students a generous sampling of key thinkers in different ideological traditions and places them in their historical and political contexts Used on its own or with *Political Ideologies and the Democratic Ideal* the title accounts for the different ways people use ideology and conveys the ongoing importance of ideas in politics **The**

Conservatives Patrick Allitt, 2009-05-26 This lively book traces the development of American conservatism from Alexander Hamilton John Adams and Daniel Webster through Abraham Lincoln Teddy Roosevelt and Herbert Hoover to William F Buckley Jr Ronald Reagan and William Kristol Conservatism has assumed a variety of forms historian Patrick Allitt argues because it has been chiefly reactive responding to perceived threats and challenges at different moments in the nation's history While few Americans described themselves as conservatives before the 1930s certain groups beginning with the Federalists in the 1790s can reasonably be thought of in that way The book discusses changing ideas about what ought to be conserved and why Conservatives sometimes favored but at other times opposed a strong central government sometimes criticized free market capitalism but at other times supported it Some denigrated democracy while others championed it

Core elements however have connected thinkers in a specifically American conservative tradition in particular a skepticism about human equality and fears for the survival of civilization Allitt brings the story of that tradition to the end of the twentieth century examining how conservatives rose to dominance during the Cold War Throughout the book he offers original insights into the connections between the development of conservatism and the larger history of the nation **After the Hangover** R. Emmett Tyrrell, 2010-04-19 Looking for real hope and change The man Hardball host Chris Matthews calls the legendary R Emmett Tyrrell Jr has done it again Tyrrell author of such tours de force as New York Times bestseller Boy Clinton The Political Biography The Liberal Crack Up and The Conservative Crack Up serves up an insightful and delightful exploration of the past present and future of American conservatism or what he terms America's longest dying political philosophy And its future is bright Tyrrell begins with a sparkling distillation of conservative theory and history complete with personal anecdotes from his decades in the movement inspired by its luminaries bored by its dim bulbs He explains the nature of the conservative temperament its political libido and how it plays out in today's curious political culture examines the vital role of a true political culture and solidarity in opposing the left and then offers a comprehensive agenda for the future of the movement that every political player on both the right and the left will have to read to grapple with in 2010 and 2012 Tyrrell also considers American Liberalism its excesses quirks and near suicidal instinct Far from offering mere indictment however Tyrrell also delivers a unique perspective on Liberalism's strengths such as its intramural ecumenism and rare ability to rally around shared causes explaining how conservatives could learn and profit from the example It goes without saying that through it all Tyrrell's famous humor crackles and lifts the spirit Conservatives looking for perspective on the current scene a richer understanding of their shared past and hope for the future will find After the Hangover as refreshing as it is restorative PREVIOUS ACCLAIM The legendary R Emmett Tyrrell Jr CHRIS MATTHEWS No columnist no author has had a greater influence upon the course of American political history over the past decade than that ribald contrarian R Emmett Tyrrell Jr Even the slain giants die laughing TOM WOLFE Washington would not be the same without Bob Tyrrell and neither would the American conservative movement While dilettantes come and go the relentless and irrepressible Tyrrell is forever DAILY TELEGRAPH LONDON Tyrrell is the master of a particular form taking broken shards of silliness deviance hypocrisy crime and treason shaping them into Erasmian examples of human folly and doing so with style and flow ARAM BAKSHIAN Tyrrell alerts us to the dangers our political system faces and he does it with the insight wit and style that mark him as a great American writer BOB BARR R Emmett Tyrrell Jr has written a stimulating book which should cause many Americans to rethink positions they have taken in the debates of the past decade HENRY KISSINGER For a man I disagree with as much as Emmett Tyrrell I must say that I enjoyed the sheer hell out of his book NORMAN MAILER

The Conservative Intellectual Movement in America Since 1945 George H. Nash, 2023-03-28 First published in 1976 George H Nash's celebrated history of the postwar conservative intellectual movement has become the unquestioned

standard in the field This new edition published in commemoration of the book s thirtieth anniversary includes a new preface and conclusion by the author and will continue to instruct anyone interested in how today s conservative movement was born
