## **The Hand Of God Whaling In The Azores:**

**The Hand of God** Trevor Raymond Laurence Housby, 1971      *Encyclopedia of Marine Mammals* William F. Perrin, Bernd Würsig, J.G.M. Thewissen, 2009-02-26 This thorough revision of the classic *Encyclopedia of Marine Mammals* brings this authoritative book right up to date. Articles describe every species in detail based on the very latest taxonomy and a host of biological, ecological, and sociological aspects relating to marine mammals. The latest information on the biology, ecology, anatomy, behavior, and interactions with man is provided by a cast of expert authors, all presented in such detail and clarity to support both marine mammal specialists and the serious naturalist. Fully referenced throughout and with a fresh selection of the best color photographs available, the long-awaited second edition remains at the forefront as the go-to reference on marine mammals. More than 20% NEW MATERIAL includes articles on Climate Change, Pacific White-sided Dolphins, Sociobiology, Habitat Use, Feeding, Morphology, and more. Over 260 articles on the individual species with topics ranging from anatomy and behavior to conservation, exploitation, and the impact of global climate change on marine mammals. New color illustrations show every species and document topical articles. FROM THE FIRST EDITION: This book is so good a bargain, full of riches packed with fascinating up-to-date information. I recommend it unreservedly to individuals, students, and researchers as well as libraries. Richard M. Laws. *MARINE MAMMALS SCIENCE* establishes a solid and satisfying foundation for current study and future exploration. Ronald J. Shusterman. *SCIENCE*      *On the Edge of History* Joseph C. Abdo, 2005 During the 19th century the United States and Europe were on the brink of a transition that would lead to the modern world. In the middle of the Atlantic the Dabney family from Boston had settled on the small island of Faial in the Azores and quickly became involved in the political, literary, intellectual, and religious changes taking place at that time on both sides of the Atlantic. This book provides a rare glimpse of life from the point of view of some well-known historical figures as well as some anonymous insiders, creating a picture of individuals and events in the 19th century from a fresh perspective. In some instances it fills in unsuspected gaps or provides different interpretations of what occurred in the story of the 19th century. This American family at the crossroads of the Atlantic had an importance that was hidden behind the mists of the Atlantic.      **MotorBoating**, 1971-12      *The Great Sperm Whale* Richard Ellis, 2011-04-06 Over the past several decades Richard Ellis has produced a remarkable body of work that has been called magnificent. *Washington Post Book World* masterful. *Scientific American* magical. *Men's Journal* and a dazzling tour de force. *Christian Science Monitor*. Ellis's new book, a fascinating tour through the world of the sperm whale, will surely inspire more such praise for the author heralded by *Publisher Weekly* as America's foremost writer on marine research. Written with Ellis's deep knowledge and trademark passion, verve, and wit and illustrated with a wide array of images including his own signature artwork, his study covers the full spectrum of the sperm whale's existence from its prehistoric past to its current endangered existence. Ellis, as no one else, can illuminate the iconic impact of *Physeter macrocephalus*, the big-headed blower, on our history, environment, and

culture with a substantial nod to Herman Melville and Moby Dick the great novel that put the sperm whale and whaling on the literary map Ranging far and wide Ellis covers the sperm whale s evolution ecology biology anatomy behavior social organization intelligence communications migrations diet and breeding He also devotes considerable space to the whale s hunting prowess including its clashes with the giant squid and to the history of the whaling industry that decimated its numbers during the last two centuries He even includes a story about a beached juvenile he helped rescue an event that provided scientists with one of their first opportunities to observe a sperm whale in the water and up close Offering a rich tapestry for anyone with an interest in the marvels of ocean life Ellis s book provides an indispensable guide to the life and times of one of the planet s most intelligent elusive and endangered species     *The Grey Undercurrent* Felix

Schürmann,2023-04-03 By extending their voyages to all oceans from the 1760s onward whaling vessels from North America and Europe spanned a novel net of hunting grounds maritime routes supply posts and transport chains across the globe For obtaining provisions cutting firewood recruiting additional men and transshipping whale products these highly mobile hunters regularly frequented coastal places and islands along their routes which were largely determined by the migratory movements of their prey American style pelagic whaling thus constituted a significant though often overlooked factor in connecting people and places between distant world regions during the long nineteenth century Focusing on Africa this book investigates side effects resulting from stopovers by whalers for littoral societies on the economic social political and cultural level For this purpose it draws on eight local case studies four from Africa s west coast and four from its east coast In the overall picture the book shows a broad range of effects and side effects of different forms and strengths which it figures as a grey undercurrent of global history     *Azores* Miguel Moniz,1999 This bibliography is a collection of primarily English

language sources including abstracts for approximately 800 books journal articles and theses covering a wide variety of topics about the nine islands of the Azores Moniz an anthropologist who has taught at Brown University introduces researchers to the islands history politics literature culture natural features and far flung migration patterns The entries are organized topically into sections such as oceanography and meteorology travelers accounts whaling religion cuisine and education Annotation copyrighted by Book News Inc Portland OR     *The Complete Book of Sea Kayaking* Derek C.

Hutchinson,2018-06-01 The most comprehensive guide for sea kayakers of all levels First published in 1976 The Complete Book of Sea Kayaking is a comprehensive guide for the beginner and an invaluable reference book for the experienced sea kayaker Originally penned by the late Derek C Hutchinson an international authority on sea kayaking it describes equipment basic and advanced techniques weather and navigation and is illustrated throughout by the author s own drawings and color photographs This new 40th anniversary edition has been completely updated in line with the latest sea kayaking developments by Wayne Horodowich a longtime friend of Hutchinson s and the founder of University of Sea Kayaking

Whales, Whaling, and Whale Research L. R. Magnolia,1973     **Whales, Whaling, and Whale Research** ,1977 1000

English language references on the Cetacea whaling techniques research on these mammals and substitutes for whale derived products     The Log of Mystic Seaport ,1973     *Bibliography of Whale Killing Techniques* Edward D. Mitchell,Randall R. Reeves,Anne Evelyn,International Whaling Commission,1986 An annotated bibliography arranged by broad categories giving an introduction to the literature on all major techniques for killing whales Annotations emphasize two aspects of the killing process time to death and physiological system affected Introductory essay gives an overview of the history of whaling and the invention and development of killing methods     American Book Publishing Record Cumulative, 1950-1977 R.R. Bowker Company. Department of Bibliography,1978     Men and Whales Richard Ellis,1992     **Journal of the Royal Australian Historical Society** Royal Australian Historical Society,1985 Includes the Society s Annual report and statement of accounts     **Library of Congress Catalogs** Library of Congress,1976     **Arctic** ,1980     **Performing Environmentalisms** John Holmes McDowell,Katherine Borland,Rebecca Dirksen,Sue Tuohy,2021-09-14 Performing Environmentalisms examines the existential challenge of the twenty first century improving the prospects for maintaining life on our planet The contributors focus on the strategic use of traditional artistic expression storytelling and songs crafted objects and ceremonies and rituals performed during the social turmoil provoked by environmental degradation and ecological collapse Highlighting alternative visions of what it means to be human the authors place performance at the center of people s responses to the crises Such expression reinforces the agency of human beings as they work independently and together to address ecological dilemmas The essays add these people s critical perspectives gained through intimate struggle with life altering force to the global dialogue surrounding humanity s response to climate change threats to biocultural diversity and environmental catastrophe Interdisciplinary in approach and wide ranging in scope Performing Environmentalisms is an engaging look at the merger of cultural expression and environmental action on the front lines of today s global emergency Contributors Aaron S Allen Eduardo S Brondizio Assefa Tefera Dibaba Rebecca Dirksen Mary Hufford John Holmes McDowell Mark Pedelty Jennifer C Post Chie Sakakibara Jeff Todd Titon Rory Turner Lois Wilcken
