The Churches And Politics In Germany:

The Churches and Politics in Germany Frederic Spotts, 1973 Probably in no other European country have the churches enjoyed such pervasive social and political influence as in western Germany or succeeded in carrying into the twentieth century so many of their traditional privileges Even today the two confessions remain among the more powerful interest groups in the German policy making process Frederic Spott s major thesis is that the immediate post war circumstances in Germany permitted the churches to mould social attitudes indirectly thereby playing a major role in the construction of the new Germany The author further shows that the paradoxical concomitant has been that they helped to bring about a sweeping secularization of German society that now circumscribes both their social and political influence Making full use of the available documents including many unpublished church papers and governmental reports and of his own interviews with officials Mr Spotts has been able to clarify certain aspects of this important period in German history In his comparative approach and his clear narrative account of the years from 1945 until the present he offers to Germanists and to other interested scholars the first full scale study of the complex role of the churches in rebuilding Germany

The Church of England and the Holocaust Tom Lawson, 2006 Explores the Church of England s understanding of the Third Reich and its impact on the reactions to and memory of the Holocaust in Britain Argues that the Anglican Church did not engage with the Third Reich through the prism of the persecution of the Jews English Christians commonly perceived Nazism as significant through its anti Christianity as an attack on Christian culture and not through its antisemitism In the 1930s the Church was opposed to war but when Nazi antisemitism became much more pronounced after 1938 the Church incorporated this persecution into its image of Nazism as anti Christian While there was some concern for Jewish victims especially on the part of George Bell and William Temple particular concern was expressed for the German Christian victims of totalitarianism This led the Anglican Church after the war to favor reconstruction of West Germany as a buffer against communism and anti Christianity The Church objected to war crimes trials as being opposed to Christian forgiveness vs the Jewish value of vengeance a view which sought to reduce the significance of Nazi antisemitism and the Holocaust

The Politics of the Body in Weimar Germany Cornelia Usborne, 1992-04-08 This book analyses how the Weimar Republic put Germany in the forefront of social reform and women s emancipation with wide ranging maternal welfare programmes and labour protection laws Its enlightened policy of family planning and liberalised abortion laws offered women a new measure of control over their lives But the new politics of the body also increased state intervention the power of the medical profession and the tendency to sacrifice women s rights to national interests whenever the Volk seemed in danger of racial decline

The Politics of Religion in Soviet-Occupied Germany Sean Brennan, 2011-11-25 This book discusses the religious policies of the Soviet military authorities and their allies in the Socialist Unity Party in the Soviet zone but more

importantly who devised them how they did so and how they attempted to implement them In doing so it illustrates how the Soviet authorities recreated the Soviet zone along Stalinist lines with regards to religious policy a process which they implemented throughout all of Eastern Europe as well in East Germany While I examine how these policies were devised I place greater emphasis on their implementation in the Soviet zone especially its most important province Berlin Brandenburg Furthermore this book demonstrates how the leadership of the Churches responded to the policies of the Soviet military authorities and their allies in the Socialist Unity Party especially after they took and increasingly anti religious tone during the late 1940s The diverse responses of the Church leadership in the Evangelical Church during the Soviet occupation reveal the foundations of the eventual break within the leadership of the Evangelical church in the 1960s over the issue of how to deal with the atheist SED regime At the same time the stances of Evangelical Bishop Otto Dibelius and the Catholic Bishop Konrad von Preysing as stalwart opponents of the creation of the second German dictatorship in the 1940s demonstrate how Churches would become central actors in the East German dissident movement in the 1970s and 1980s The Challenge of Pluralism Stephen V. Monsma, J. Christopher Soper, 2009 Provides a comparative analysis of church state issues in the United States the Netherlands Australia England and Germany and argues that the U S is unique in the way it resolves religious freedom and religious establishment questions *Germany in the Twentieth Century (RLE: German Politics)* David Childs, 2014-12-17 The book traces the development of Germany from the Kaiser's Reich in the 1870s to the reunited democratic state led by Helmut Kohl in the 1990s The author begins by countering the popular view of Germany before 1914 as irredeemably reactionary and after assessing Germany's part in the First World War he outlines the rise and fall of the Weimar Republic The 12 years of Hitler's destructive experiment are presented in a balanced way as part of the overall development of the country Germany in defeat is then discussed as is her rebirth under Four Power occupation The last chapters explore the two separate German states and the events leading up to the restoration of German unity

Landscape Imagery, Politics, and Identity in a Divided Germany, 1968-1989 Professor Catherine Wilkins, 2013-12-02 Landscape Imagery Politics and Identity in a Divided Germany 1968 1989 explores the communicative relationship between German landscape painting and the viewing public that developed in the wake of the student revolutions of the late 1960s The book dem **The Catholic Church And Nazi Germany** Guenter Lewy, 2009-09-09 The subject matter of this book is controversial Guenter Lewy states plainly in his preface To show the German Catholic Church's congeniality with some of the goals of National Socialism and its gradual entrapment in Nazi policies and programs Lewy describes the episcopate's support of Hitler's expansionist policies and its failures to speak out on the persecution of the Jews To this tragic history Lewy brings new focus and research illuminating one of the darkest corners of our century with scholarship and intellectual honesty in a riveting and often painful narrative **Cinema in Democratizing Germany** Heide Fehrenbach, 1995 Heide Fehrenbach analyzes the important role cinema played in the reconstruction of German cultural and

political identity between 1945 and 1962 Concentrating on the former West Germany she explores the complex political uses of film and the meanings a
