Lamport, 2015-05-07 Christianity regards teaching as one of the most foundational and critically sustaining ministries of the Church As a result Christian education remains one of the largest and oldest continuously functioning educational systems in the world comprising both formal day schools and higher education institutions as well as informal church study groups and parachurch ministries in more than 140 countries In The Encyclopedia of Christian Education contributors explore the many facets of Christian education in terms of its impact on curriculum literacy teacher training outcomes and professional standards This encyclopedia is the first reference work devoted exclusively to chronicling the unique history of Christian education across the globe illustrating how Christian educators pioneered such educational institutions and reforms as universal literacy home schooling Sunday schools women's education graded schools compulsory education of the deaf and blind and kindergarten With an editorial advisory board of more than 30 distinguished scholars and five consulting editors The Encyclopedia of Christian Education contains more than 1 200 entries by 400 contributors from 75 countries These volumes covers a vast range of topics from Christian education History spanning from the church's founding through the Middle Ages to the modern day Denominational and institutional profiles Intellectual traditions in Christian education Biblical

Eric Lincoln, Lawrence H. Mamiya, 1990-11-07 Black churches in America have long been recognized as the most independent stable and dominant institutions in black communities In *The Black Church in the African American Experience* based on a ten year study is the largest nongovernmental study of urban and rural churches ever undertaken and the first major field study on the subject since the 1930s Drawing on interviews with more than 1 800 black clergy in both urban and rural settings combined with a comprehensive historical overview of seven mainline black denominations C Eric Lincoln and Lawrence H Mamiya present an analysis of the Black Church as it relates to the history of African Americans and to contemporary black culture In examining both the internal structure of the Church and the reactions of the Church to external societal changes the authors provide important insights into the Church's relationship to politics economics women youth and music Among other topics Lincoln and Mamiya discuss the attitude of the clergy toward women pastors the reaction of the Church to the civil rights movement the attempts of the Church to involve young people the impact of the black consciousness movement and Black Liberation Theology and clergy and trends that will define the Black Church well into the next century This study is complete with a comprehensive bibliography of literature on the black experience in religion Funding for the ten year survey was made possible by the Lilly Endowment and the Ford Foundation **Theology in Japan** Nelson J. Jennings, 2005-01-21 Japanese Christian leader Takakura Tokutaro 1885-1934 is the focus of this exhaustive historical and theological study Takakura's life spanned a critical period in developing Japan a new member of the modern family of nations At the age of 21 through the preaching of the immensely influential church leader Uemura Masahisa Takakura converted to the Christian faith He later spent over two years in the West reading extensively in British and German theology Takakura thus faced the challenge of

absorbing numerous lines of influence and re articulating the Christian faith within his own generation s distinctly Japanese linguistic and religio cultural context His personal religious experience was a microcosm of the universalization of Christian theology during the nineteenth and twentieth centuries Despite having played important leadership roles within the Protestant Church in Japan during the 1920s and early 1930s Takakura s name is scarcely known outside limited Japanese theological circles This study lends recognition to his influential role in the Christian Church It also utilizes Takakura s example to provide further insight into the universalizing trend in Christian thought that continues even today

Philosophy of Religion and the African American Experience John H. McClendon III, 2017-07-03 Most white philosophers of religion generally presume that philosophy of religion is based on what is a false universality whereby the white Western experience is paradigmatic of humanity at large The fact remains that Howard Thurman James H Cone and William R Jones among others have produced a substantial amount of theological work quite worthy of consideration by philosophers of religion Yet this corpus of thought is not reflected in the scholarly literature that constitutes the main body of philosophy of religion Neglect and ignorance of African American Studies is widespread in the academy By including chapters on Thurman Cone and Jones the present book functions as a corrective to this scholarly lacuna Fides Et Historia, 1984
