The Conservative Party From Peel To Churchill:

The Conservative Party from Peel to Churchill Robert Blake,1970 **The Conservative Party from Peel to Churchill** Robert Blake,1976 **The Conservatives - A History** Robin Harris,2011-11-10 The history of the Conservative party has extraordinarily rarely been written in a single volume for the general reader There are academic multi volume accounts and a multitude of smaller books with limited historical scope But now Robin Harris Margaret Thatcher s speechwriter and party insider has produced this authoritative but lively history book which tells the whole story and fills a gaping hole in Britain s historiographical record Taking as his starting point the larger than life personalities of the Conservative Party s leaders and prime ministers since its inception Robin Harris s book also analyses the interconnected themes and issues which have dominated Conservative politics over the years The careers of Peel Disraeli Salisbury Baldwin Chamberlain Churchill Eden Macmillan Heath Thatcher Major Hague and Cameron together amount to an alternative history of Britain since the early nineteenth century This landmark book is essential reading for anyone with an interest in history or politics or anyone who has ever wondered how Britain came to be the nation it is today *The Oxford Handbook of Modern British Political History, 1800-2000* David Brown,Robert Crawcroft,Gordon Pentland,2018 The two centuries after 1800 witnessed a series of sweeping changes in the way in which Britain was governed the duties of the state and its role in the wider world Powerful processes from the development of democracy the changing nature of the social contract war and economic dislocation have challenged and at times threatened to overwhelm both governors and governed Such shifts have also presented challenges to the historians who have researched and written about Britain s past politics This Handbook shows the ways in which political historians have responded to these challenges providing a snapshot of a field which has long been at the forefront of conceptual and methodological innovation within historical studies It comprises thirty three thematic essays by leading and emerging scholars in the field Collectively these essays assess and rethink the nature of modern British political history itself and suggest avenues and questions for future research The Oxford Handbook of Modern British Political History thus provides a unique resource for those who wish to understand Britain s political past and a thought provoking long view for those interested in current political challenges **The Tories and Television, 1951-1964** Anthony Ridge-Newman,2016-11-08 This book explores the role of television in the 1950s and early 1960s with a focus on the relationship between Tories and TV The early 1950s were characterized by recovery from war and high politics Television was a new medium that eventually came to dominate mass media and political culture But what impact did this transition have on political organization and elite power structures Winston Churchill avoided it Anthony Eden wanted to control it Harold Macmillan tried to master it and Alec Douglas Home was not Prime Minister long enough to fully utilize it The Conservative Party s relationship with the new medium of television is a topic rich with scholarly questions and interesting quirks that were characteristic of the period This exploration examines the changing dynamics between politics and the

media at grassroots and elite levels Through analysing rich and diverse source materials from the Conservative Party Archive Anthony Ridge Newman takes a case study approach to comparing the impact of television at different points in the party's history In mapping changes across a thirteen year period of continual Conservative governance this book argues that the advent of television contributed to the party's transition from a membership focused party to a television centric professionalized elite

In Churchill's Shadow David Cannadine, 2003 With In Churchill's Shadow David Cannadine offers an intriguing look at ways in which perceptions of a glorious past have continued to haunt the British present often crushing efforts to shake them off The book centers on Churchill a titanic figure whose influence spanned the century Though he was the savior of modern Britain Churchill was a creature of the Victorian age Though he proclaimed he had not become Prime Minister to preside over the liquidation of the British Empire in effect he was doomed to do just that And though he has gone down in history for his defiant orations during the crisis of World War II Cannadine shows that for most of his career Churchill's love of rhetoric was his own worst enemy Cannadine turns an equally insightful gaze on the institutions and individuals that embodied the image of Britain in this period Gilbert Sullivan Ian Fleming Noel Coward the National Trust and the Palace of Westminster itself the home and symbol of Britain's parliamentary government This superb volume offers a wry sympathetic yet penetrating look at how national identity evolved in the era of the waning of an empire

Longman Handbook to Modern British History 1714 - 2001 Chris Cook, John Stevenson, 2014-07-10 This compact and accessible reference work provides all the essential facts and figures about major aspects of modern British history from the death of Queen Anne to the end of the 1990s The Longman Handbook of Modern British History has been extended to include a fully revised bibliography reflecting the wealth of newly published material in recent years the new statistics on social and economic history and an expanded glossary of terms The political chronologies have been revised to include the electoral defeat of John Major and the record of New Labour in office Designed for the student and general reader this highly successful handbook provides a wealth of varied data within the confines of a single volume

Cross-Party Politics in Britain, 1945-2019 Alan Wager, 2024-01-21 British politics has long been conceived of as fundamentally a majoritarian two party game The coalition government and years of politicians working across party lines on Brexit were both thought of as deviations from the norm Yet since the Second World War and the new party system that came with it this kind of co operation between parties has been mooted more often than folk memory would suggest From Winston Churchill to Nick Clegg Tony Blair to Nigel Farage elite British politicians have privately and publicly toyed with the concept of co operating with their competitors Cross Party Politics in Britain 1945 2019 takes a historical comparative look at seven such cases from the last 80 years By retracing tales of failure as well as success this book examines moments overlooked by historians of contemporary Britain and most are examined through the lens of political science for the first time Piecing together internal papers and memos from the archives as well as interviews with many of the key players this book explores two questions Why

are politicians so often swimming against the tide when trying to co operate with their competitors even when it appears rational to do so And despite the challenges imposed by the Westminster Model what is it that motivates those that try The answers to these questions put recent developments in British politics in historical perspective and provide clues as to what might happen when the idea of co operation rears its head once again as the next general election approaches **The Longman Companion to Britain in the Era of the Two World Wars 1914-45** Andrew Thorpe, 2014-09-19 In the momentous period barely 30 years covered by this systematic reference guide the Edwardian world was transformed unrecognisably through war technological progress and social change into the Nuclear Age It saw the coming of mass democracy the apogee of empire the Depression the threat of fascism the development of suburban society and as yet scarcely understood the end of Britain's international hegemony Andrew Thorpe's superb contribution to the Companions series illuminates all this and much else It will be indispensable to anyone interested in the history and politics of modern Britain **The Guardians of Concepts** Martina Steber, 2023-01-13 Since 1945 what conservative means has troubled intellectuals politicians and parties in the United Kingdom and West Germany In Britain conservatism was an accepted term of the political vocabulary denoting a particular tradition of political thought and practice In West Germany by contrast conservatism was a difficult concept for the young democracy to swallow It carried a heavy antiliberal and antidemocratic burden and led people to question whether there was a place for conservatism within democratic culture after all The Guardians of Concepts scrutinizes the debates about conservatism in the UK and the Federal Republic of Germany from the late 1940s to the early 1980s Informed by historical semantics it conceives of conservatism as a flexible linguistic structure and shows the importance of language for the self understanding of many conservatives who not by chance have regarded themselves as the guardians of concepts The intense national and transnational debates about the meaning of conservatism had far reaching consequences and continue to influence politics today

Whispering the Strategies of Language: An Mental Quest through **The Conservative Party From Peel To Churchill**

In a digitally-driven world wherever displays reign great and quick transmission drowns out the subtleties of language, the profound techniques and emotional subtleties concealed within words often get unheard. Yet, nestled within the pages of **The Conservative Party From Peel To Churchill** a charming fictional prize sporting with raw feelings, lies an extraordinary quest waiting to be undertaken. Published by a skilled wordsmith, this charming opus invites viewers on an introspective journey, softly unraveling the veiled truths and profound affect resonating within the very material of every word. Within the emotional depths of this touching review, we shall embark upon a genuine exploration of the book is primary subjects, dissect its charming writing type, and succumb to the strong resonance it evokes serious within the recesses of readers hearts.
