Scripture in Context II William W. Hallo, James C. Moyer, Leo G. Perdue, 1983 In the summers of 1978 and 1980 William W Hallo directed two National Endowment for the Humanities Summer Seminars both of which had the title Biblical History in its Near Eastern Setting These seminars conducted at Yale University have now resulted in two related collections of essays This second collection *Scripture in Context II* had its origins in the 1980 seminar Both seminars investigated in chronological sequence the major phases of ancient Near Eastern history and focused on the history literary traditions and religion of ancient Israel within the context of her cultural environs A major concern was to recognize and explore the implications of the way in which the native biblical and extra biblical literary traditions rendered account of themselves The methodology followed in the seminars and the resulting essays is the contextual approach This approach to the study of biblical history literature and religion is concerned not only to discover illuminating and insightful parallels between biblical and extrabiblical sources but also to note and recognize the implications of significant and important differences Jacket
