Good Data in Business and Professional Discourse Research and Teaching Geert Jacobs, Sofie Decock, 2021-01-27 This edited book engages with the richly interdisciplinary field of business and professional communication, aiming to reconcile the prescriptive ambitions of the US-centred business communication tradition with the more descriptive approach favoured in discourse studies and applied linguistics. A follow-up to the award-winning book *The Ins and Outs of Business and Professional Discourse* (Palgrave Macmillan, 2016), this volume brings together scholars and their recent work from wide-ranging business and professional settings to engage with the question of what counts as good data. The authors focus on four key themes: authenticity, triangulation, background and relevance, to shine a light on business and professional discourse as essential contextual and intertextual. This book will be of interest to scholars working in applied linguistics, sociolinguistics and business communication, but also other social scientists interested in a range of perspectives on oral, written and digital language use in workplace settings.

Using original and insightfully analyzed data, it focuses on the ways in which both women and men draw on gendered discourse resources to enact a range of workplace roles. It illustrates how a qualitative analysis of workplace discourse can throw light on the many ways in which workplace discourse provides a resource for constructing gender identity as one component of our complex socio-cultural identity.
