

The Hidden Man Bramhope Series

Charles Felton Pidgin

The Hidden Man Bramhope Series:

Tracing Your Railway Ancestors Di Drummond, 2010-06-15 Di Drummond's concise and informative guide to Britain's railways will be absorbing reading for anyone who wants to learn about the history of the industry and for family history researchers who want to find out about the careers of their railway ancestors. In a clear and accessible way she guides readers through the social, technical and economic aspects of the story. She describes in vivid detail the rapid growth, maturity and long decline of the railways from the earliest days in the late eighteenth century to privatization in the 1990s. In the process she covers the themes and issues that family historians, local historians and railway enthusiasts will need to understand in order to pursue their research. A sequence of short, fact-filled chapters gives an all-round view of the development of the railways. In addition to tracing the birth and growth of the original railway companies, she portrays the types of work that railwaymen did and pays particular attention to the railway world in which they spent their working lives. The tasks they undertook, the special skills they had to learn, the conditions they worked in, the organization and hierarchy of the railway companies and the make-up of railway unions: all these elements in the history of the railways are covered. She also introduces the reader to the variety of records that are available for genealogical research: staff records and registers, publications, census returns, biographies and autobiographies, and the rest of the extensive literature devoted to the railway industry. **The Engineer**, 1866 **Live Stock Journal**, 1906 **English Mechanic and World of Science**, 1877

Terror in the Tunnels Rosa Matheson, 2017-05-04 The exciting early days of the railways were tempered with danger as the Victorian concept of health and safety was rather different to ours. Going into the dark was a frightening experience and tunneling under the ground and under water was a death-defying activity in nineteenth-century Britain. Many workers and travellers paid the ultimate price. Flooding, collapses and explosions, as well as malodorous air and illness, were just some of the challenges workers faced in order to make tunnels passable. Even once the tunnels had been completed, accidents were still frequent, whether collisions, derailments or fires. In this fascinating history, Rosa Matheson explores the grim past of Britain's well-known and lesser-known railway tunnel disasters and how their terror led to a safer future. *English Mechanic and Mirror of Science*, 1877 **English Mechanic and Mirror of Science and Art**, 1877 **Words on Cassette**, 1993 Justice of the Peace & Local Government Law, 1997 *The Architects' Journal*, 2000 *The Veterinary Record*, 1959 **Railway Age**, 1931 The Hidden Man Charles Felton Pidgin, 1906 The Hidden Man Anthony Flacco, 2022-04-07 **The Hidden Man** Anthony Flacco, 2008 Discovering that an enemy from his past has returned to destroy him, world-famous mesmerist James Duncan enlists the aid of Detective Randall Blackburn and his protégé Shane Nightingale to protect him from danger in a historical thriller set against the backdrop of the 1915 San Francisco World Fair. By the author of *The Last Nightingale*. Original 15,000 first printing. The Hidden Man Michael Underwood, 2005 Sarah was driving while just over the breathalyser limit when she knocked down a pop star and killed him. Was this just an ordinary

motoring accident or not **The Hidden Man** Michael Underwood, 1985-01-01 Lawyer detective Rosa Epton defends a
woman involved in an automobile accident in which a famous rock star was killed **The Hidden Men** Seldon Truss, 1959
 The Hidden Man (other Poems of Prison) Martin Carter, 1952
