International agrifood chains and networks Jos Bijman, Onno Omta, Jacques Trienekens, Jo Wijnands, Emiel Wubben, 2023-08-28 This book brings together a rich collection of material on management and organization in agri food chains and networks Producers processors traders and retailers of agricultural and food products operate in an economic and institutional environment that is increasingly dominated by global developments Therefore organizing efficient and effective supply chains as well as managing collaboration among participating firms requires an international perspective This book presents theoretical and practical insights from many different parts of the world Topics covered include classical supply chain management issues like logistics information exchange e g tracking and tracing quality control safety assurance and chain performance Other timely issues covered are joint innovation and shared responsibility for sustainability in agri food supply chains Special attention is given to issues of governance and organization of chains and networks for example by focussing on the role of producer organisations such as farmer cooperatives in their effort to combine horizontal and vertical collaboration in the international supply chain This book is relevant for both academics and managers interested in the latest advances in research on management and organization of international agri food chains and networks

The Emerging Digital Economy Börje Johansson, Charlie Karlsson, Roger Stough, 2006-09-22 This book provides a balanced empirically based view of the Digital Economy and explores its regional and geographical import in areas where the Digital Economy meets more traditional patterns More than just an interpretive analysis this book utilizes empirical evidence in its assessment of the dynamics of specific regions in different parts of the world The book also examines the policy implications of the rising Digital Economy

Deregulation and Its Discontents M. Ramesh, Michael Howlett, 2006-01-01 an extremely interesting collection full of insights and institutional detail The book definitely deserves the attention of those interested in one of the most debated issues of the last 20 years in economics and

political science Herb Thompson *Journal of Contemporary Asia* Deregulation and its Discontents examines the different ways in which the issues related to deregulation and reregulation have been addressed in Asia The role of government in business has gone through distinct if overlapping cycles regulation deregulation and reregulation However little is known about deregulation and even less about reregulation particularly in relation to Asia The contributors to this book examine the links between the cycles through detailed analyses of the electricity market pensions and stock markets in the Asia Pacific They also offer an explanation of regulatory cycles This unique and inter disciplinary book is thoroughly accessible and will be suitable for specialist as well as non specialist readers It will appeal to academics and researchers of public sector economics Asian studies and the political economy of Asia in particular as well as public officials dealing with regulatory issues

Microeconomics, Competition and Strategic Behaviour Markus Thomas Münter, 2022-09-05 Microeconomics is not applied math frameworks in this book are regularly in use in daily managerial practice and strategic decision making Numerous case studies cover price discrimination economies of scale digital business models game theory dealing with uncertainty entry barriers or sunk costs all of which are crucial for understanding market dynamics and competitive behaviour *Freight Forwarder's Intermediary Role in Multimodal Transport Chains* Hans-Joachim Schramm, 2012-01-05 In this book the business of international freight forwarding is examined from both a theoretical and empirical point of view with a special emphasis on multimodal transport chains including sea or air transport operations In such contexts the freight forwarder is always considered The Architect of Transport but this intermediary role seems to be largely neglected in research to date Therefore relevant concepts from economic theory and economic sociology are employed to produce both an intermediary and a network perspective of freight forwarding in order to provide a better understanding of this kind of transportation business Furthermore its intermediary role in such inherent network structures is explored by mapping relationship patterns in a stylized model framework applied to a questionnaire based sample collected among freight forwarders engaged in such multimodal transport chains in Germany especially from Hamburg Bremen and Bremerhaven as well as in Austria in 2003 Fostering Innovation in the Intelligence Community Craig W. Gruber, Benjamin Trachik, 2023-09-12 In response to the increasingly ubiquitous asynchronous and pervasive use of cyber technology in everyday life unique threats to cybersecurity CS have emerged requiring innovative and systemic solutions Of the potential threats Ubiquitous Technical Surveillance UTS presents one of the most acute generalized vulnerabilities facing the broader Intelligence Community IC Department of Defense DoD and United States Government While security systems and networks have attempted to adapt to meet these evolving threats internal organizational structures culture and human behavior often lag behind due to the inherent challenges in changing these dynamic variables It is crucial that scientific disciplines identify systemic and innovative behavioral countermeasures that are informed by sub disciplines of the psychology and CS literature Innovative strategies involve collaboration amongst experts from the domains of social psychology game theory Bayesian

statistics and the IC which will be discussed in depth A special issue that pulls from cross disciplinary professionals will have a broad impact for the IC and DOD eliciting wide readership and spurring needed innovation

Cultivating a culture of innovation though difficult is important for any enduring organization It s downright essential for the US Intelligence Community which must stay one step ahead of adversaries on surveillance technologies and tradecraft to be effective This collection of articles brings together insightful research and analysis from diverse domains moving us closer to the deeper appreciation of innovation and culture that is so urgently needed David Priess Ph D former Central Intelligence Agency officer and author *The President s Book of Secrets* **Mechanical Engineering** ,1921 *The Systematic Search for Entrepreneurial Discoveries* James O. Fiet,2002-07-30 Entrepreneurs do much more than manage small businesses At the heart of entrepreneurship is the discovery process An idea is conceived and then exploited for profit But if the idea is neither useful nor unique its exploitation will generate only average profits Therefore the idea and the process that leads to its discovery are of the utmost importance to the success of any new venture Can the discovery process be taught or must one be born with the talent to unearth promising opportunities Fiet argues that entrepreneurial discovery can indeed be taught and he proposes a theory of the informational elements that constitute the discovery process Entrepreneurship as an academic discipline has often been criticized for lacking intellectual rigor and a theoretical foundation Fiet supplies both in this scholarly book which approaches entrepreneurial competence from an academic perspective There are three primary characteristics of entrepreneurial competence tacit knowledge of an entrepreneur s field of endeavor which can be improved by trial and error the knowledge of decision rules that enable one to make rational informational investments based upon the signals of opportunities and the unequal distribution of entrepreneurial competence among the population Recognizing that entrepreneurs start out at different stages of competence Fiet asserts that anyone can improve using his book as a pedagogical aid This volume fills a void in the entrepreneurship literature which too often is indistinguishable from that which informs courses on small business management [The Routledge Handbook of Poverty in the Global South](#) Rajendra Baikady,John Gal,Varoshini Nadesan,Sajid S.M.,Gao Jianguo,2023-12-01 This handbook initiates fresh debates on poverty and its impact in a constantly changing Global South society It studies the concept theories and causes of poverty as well as the design and delivery of social welfare policies related to specific groups such as women children and the elderly The chapters are theoretical evidence based and empirical in nature and bring together a holistic understanding of social problems and issues in developing countries The volume brings together researchers educators and practitioners from across the globe to develop a hands on reference work that will be requisite for several social science disciplines concerned with poverty and the welfare of poor people The first of its kind the handbook will be indispensable for scholars and researchers of development studies economics social work political studies poverty studies population and demographic studies sociology social
