Overshot Simply Susan

Kesler-Simpson, 2018-08-10. Overshot is perhaps the most iconic weaving technique, think antique coverlets and fancy table runners, yet many weavers are intimidated by its complex looking structure. But it doesn't have to be difficult. In this book Susan Kesler Simpson makes overshot approachable by breaking it down piece by piece so that the weaver understands how it works and then she puts it all back together so that weavers will have the confidence to make their own overshot patterns or to try any of the 38 overshot projects she has designed for the book. Weavers will learn to understand overshot as a derivative of twill, to understand the tie up placement of tabby in the tie up threading and treadling, how to choose threads for overshot, how to use borders in your designs, how to set up the loom for overshot, how to work an overshot gamp. Projects include Blankets, Shawls, Scarves, Christmas ornaments, Table runners, Placemats, Napkins. Others. Susan's explanations are to the point and easy to understand. When you read through the chapters it's as if Susan is sitting there with you, telling you in a friendly voice how to weave overshot, step by step. Excerpt from the Foreword by Tom Knisely.

Communicating in the Anthropocene C. Vail Fletcher,Alexa M. Dare,2021-02-04 The purpose of Communicating in the Anthropocene Intimate Relations is to tell a different story about the world Humans especially those raised in Western traditions have long told stories about themselves as individual protagonists who act with varying degrees of free will against a background of mute supporting characters and inert landscapes Humans can be either saviors or destroyers but our actions are explained and judged again and again as emanating from the individual And yet as the coronavirus pandemic has made clear humans are unavoidably interconnected not only with other humans but with nonhuman and more than human others with whom we share space and time Why do so many of us humans avoid deny or resist a view of the world where our lives are made possible maybe even made richer through connection In this volume we suggest a view of communication as intimacy We use this concept as a provocation for thinking about how we humans are in an always already state of being in relation with other humans nonhumans and the land
