The Secret Martians and Other Stories Jack Sharkey,2016-01-11 MASTER SPY OF THE RED PLANET Jerry Delvin had a most unusual talent He could detect the flaws in any scheme almost on sight even where they had eluded the best brains in the ad agency where he worked So when the Chief of World Security told him that he had been selected as the answer to the Solar System's greatest mystery Jerry assumed that it was because of his mental agility But when he got to Mars to find out why fifteen boys had vanished from a spaceship in mid space he found out that even his quick mind needed time to pierce the maze of out of this world double dealing For Jerry had become a walking bomb and when he set himself off it would be the end of the whole puzzle of THE SECRET MARTIANS with Jerry as the first to go Jack Sharkey decided to be a writer nineteen years ago in the Fourth Grade when he realized all at once that someone wrote all those stories in the textbooks While everyone else looked forward variously to becoming firemen cowboys and trapeze artists Jack was devouring every book he could get his hands on figuring that if I put enough literature into my head some of it might overflow and come out After sixteen years of education Jack found himself teaching high school English in Chicago a worthwhile career but not what one would call zesty After a two year Army hitch and a year in advertising sublimating my urge to write things for cash Jack moved to New York determined to make a career of full time fiction writing Oddly enough it worked out and he now does nothing else He says I'd like to say I do this for fulfillment or for cash or because it's my destiny however the real reason same as that expressed by Jean Kerr is that this kind of stay at home self employment lets me sleep late in the morning
