America has endured the deaths of four presidents from assassination a four year civil war racist attacks on civil rights activists and ordinary citizens deadly clashes between protesting citizens and law enforcement sustained campaigns of violence against marginalized populations seeking greater political or economic equality politically motivated mass shootings and on January 6 2021 the shocking spectacle of a politically motivated mob attack on the U S Capitol How and why did these events transpire What were the root causes What factors are driving political violence and intimidation in America today And are there changes that we could make to our country s political discourse that would reduce such outbreaks of bloodshed

This authoritative multivolume encyclopedia provides answers to all these questions and more *People of the City*

C. Fred Alford,2019-11-07 In these short accessible essays Alford writes about the personal Why I Pray as well as the political Simone Weil and Donald Trump He makes some difficult theologians such as Karl Barth and S ren Kierkegaard accessible while not hesitating to criticize them Alford argues the genius of Christianity is in God making himself vulnerable so as to know what it is to be human otherwise God stands at a terrible distance from humanity From this perspective Christianity is about the teachings of Christ and God s willingness to suffer The resurrection so central to most Christians becomes less important Myriad religious thinkers are considered including Albert Camus Thomas Merton Reinhold Niebuhr Rudolf Bultmann and Paul Tillich among others including Simone Weil Also addressed is the relationship between religion and psychology as well as the status of natural law Notable is the author s attitude which combines respect for great thinkers and a willingness to call them out as wrong confused or misguided Unafraid of atheism Alford thinks many of the so called new atheists judge religion as though it were a science a confusion of categories Once a philosopher of science he knows the scope and limits of scientific explanation better than most **The Best Presidential Writing**
