So Roman:

Time in Roman Religion Gary Forsythe, 2012-05-31 Religion is a major subfield of ancient history and classical studies and Roman religion in particular is usually studied today by experts in two rather distinct halves the religion of the Roman Republic covering the fifth through first centuries B C and the religious diversity of the Roman Empire spanning the first four centuries of our era In *Time in Roman Religion* author Gary Forsythe examines both the religious history of the Republic and the religious history of the Empire These six studies are unified by the important role played by various concepts of time in Roman religious thought and practice Previous modern studies of early Roman religion in Republican times have discussed how the placement of religious ceremonies in the calendar was determined by their relevance to agricultural or military patterns of early Roman life but modern scholars have failed to recognize that many aspects of Roman religious thought and behavior in later times were also preconditioned or even substantially influenced by concepts of time basic to earlier Roman religious history This book is not a comprehensive survey of all major aspects of Roman religious history spanning one thousand years Rather it is a collection of six studies that are bound together by a single analytical theme namely time Yet in the process of delving into these six different topics the study surveys a large portion of Roman religious history in a representative fashion from earliest times to the end of the ancient world and the triumph of Christianity

The Civilian Legacy of the Roman Army, 2024-06-24 The Roman army represented an important social and organizational reference model for the Romano Barbarian societies which progressively replaced the Western Empire in the transition from Late Antiquity to Early Middle Ages The great flexibility of the decision making and organizational solutions used by the Roman army allowed the new lords to readapt them and thus maintain power in early medieval Europe for a long time From a perspective ranging from political social and economic history to law anthropology and linguistic this book demonstrates how interesting and fruitful the investigation of this specific cultural imprint can be in order to gain a better understanding of the origins of the civilization that arose after the fall of the Roman world Contributors are Francesco Borri Fabio Botta Francesco Castagnino Stefan Esders Carla Falluomin Stefano Gasparri Wolfgang Haubrichs Soazick Kerneis Luca Loschiavo Valerio Marotta Esperanza Osaba Walter Pohl Jean Pierre Poly
