Cognitive Method Marco Bernini, 2021-10-26 Beckett and the Cognitive Method argues that Samuel Beckett's narrative work inaugurates an exploratory use of narrative as a cognitive modeling technology. Through a detailed analysis of Beckett's entire corpus and published volumes of letters, this book argues that Beckett pioneered a new method of writing to construct in a mode analogous to scientific inquiry models for the exploration of core laws, processes, and dynamics in the human mind.

The Art of Helping Others Heather Smith, Mark K. Smith, 2008 When searching for someone to help them reflect upon and improve their lives, people tend to be drawn towards those who are compassionate, committed, and wise. This book is aimed at those who recognise these qualities in themselves and wish to develop their capacity to engage with and help others. The authors argue for ways of approaching helping and counselling that are rooted in care and commitment, drawing upon the experiences and practice wisdom of youth workers, housing support and hostel workers, the clergy, and those working in a religious setting, educators, and settlement and community workers. They explore the key characteristics of those who counsel and teach, and examine aspects of the helping process, focusing on living life well, knowing and being oneself, relating to others, and working to make change possible. This book will be essential reading for students on professional training programmes in youth work, community education, ministry, social care, and counselling.

The Contemporary Bauman Anthony Elliott, 2013-10-08 This text covers Bauman's contribution to sociology and social theory. This ideal teaching text analyzes Bauman's shift from a sociology of postmodernity to liquid modernity and provides a critical assessment of the contemporary Bauman, appraising his novel theory of liquid modernity in terms of its implications for self-identity, interpersonal relationships, culture, communications, and the broad-ranging institutional transformations associated with globalization. In addition to various extracts from Bauman's work, the book also contains a spirited reply from Zygmunt Bauman to both his sympathetic and unsympathetic critics. Bauman concludes by providing a new perspective on his theory of liquid modernity, its differentiation from the modernity/postmodernity debate, and its relation to current developments in contemporary social theory.

The Importance of Civility T. S. Bogorad, 2006-08 Your choices, charm, and chutzpah can revitalize your community. In her first book, Bogorad reminds us that we are all social beings who need to socially interact to thrive as individuals and to sustain strong communities. She shares with us the theory that social isolation leads to victimization and weakens our communities. And she warns us that social cannibalism may consume us if we continue to ignore our need and our obligation to socially interact with each other. If you are a person whose community has been weakened by incivility, victimization, and/or addiction, the ideas within her book may help you strengthen your community. Or if you are a person who has minimal contact with other people, her ideas may provide you with a reason to increase the quantity and quality of your interactions. Or if you are a person who lives in a community without incivility, victimization, and addiction, the contents of her book may help you understand those of us whose social environment is not as perfect as yours. But no matter who you are, reading her book will cause you to wonder about the importance of civility and the costs of incivility.

Remember We all need a village And ponder What we do not say does hurt us and our polite interaction with others strengthens us and our community according to Bogorad The Homeless Person in Contemporary Society Cameron Parsell,2018-05-23 The homeless person is thought to be different Whereas we get to determine our difference or sameness the homeless person s difference is imposed upon them and assumed to be known because of their homelessness Exclusion from housing either a commodity that should be accessed from the market or social provision signifies the homeless person s incapacities and failure to function in what are presented as unproblematic social systems Drawing on a program of research spanning ten years this book provides an empirically grounded account of the lives and identities of people who are homeless It illustrates that people with chronic experiences of homelessness have relatively predictable biographies characterised by exclusion poverty and trauma from early in life Early experiences of exclusion continue to pervade the lives of people who are homeless in adulthood yet they identify with family and normative values as a means of imaging aspirational futures
