Community R.D. Budson, I. Barofsky, 2012-12-06 The purpose of this book is to present an integrated approach to the treatment of the chronic psychiatric patient living in the community This requires that topics as diverse as pharmacokinetics psychotherapy and community organization be appropriately coordinated Such an approach is partly complicated by the wide range of differences among patients in terms of social skills intellectual capacity and psychiatric diagnosis In addition unclear insular or overlapping roles of various mental health disciplines further confound integrated treatment efforts Given
